

LAST MINUTE NEWS

November 16, 1981

We just got back from Fenton's with the Atlantis pieces. The two new pieces - Rose Bowl and Fan Vase are beautiful! We now have all 5 pieces. We haven't been home long enough to see exactly how many pieces arrived here but less than 100 of each piece. A total of somewhere around 497 pieces in all.

While they were making these, they left off the spray on about 25 pieces. They have clear bottoms and opal tops. We have approximately 5 of each shape less the set I am keeping for my collection. These are absolutely gorgeous! No color, just clear and white opal. I'm offering these first come first serve for \$55.00 each. I bought all of these from MLT Glass.

Mike had Fenton make some tiny pieces for him. They used the bottom of the Beaded Fairy Lite and turned it into about 10 different shapes. There are flat cake plates, flared, ruffled, turned in, turned out, heart shape, regular shape, fan vases, banana boats, etc. These were all made in Peach opal...691 in all.

He also had the hobnail compote made in Peach opal. These were done in several different flares, shapes, crimps, etc. Without pictures, it is hard to describe these but I imagine the dealers that are handling the Atlantis Vase for MLT Glass, listed inside, will be having these also as soon as they hear about them. Six hundred and eighty-seven (687) of these were made. The figures on the above pieces were how many went into thelehr. We don't know yet how many we actually got but this is all there will ever be from us as we won't make these pieces again in this color.

While in Ohio, Robert Wetzal made 100 sets of the God & Home table set in Green Carnival...plate-cup-saucer-sugar-creamer and covered butter in miniature.

Just had to tell you this now as the local dealers close will snap them up and I did want some of my friends out there to at least be able to have some if they wanted them. The next Encore doesn't come out until February. Contact your nearest dealer that is listed in Encore and if he won't order them for you, contact me for complete information.
