At 2PM, November 25th, 1984, the monthly meeting was called to order by Vice President Diana Treff. Diana welcomed all members and thanked President Cooley Miller and his wife Marge for their generous hospitality in having the club meet at their home this month. Marge prepared a wonderful brisket and all present brought a covered dish, the meal was prior to the meeting.

The minutes of the October meeting were read Vice President Diana Treff and accepted as read. The Treasurers report was given as sent by Treasurer Karen Engel and also accepted as given.

Marge Miller reported for John & Lucile Britt that the 1985 souvenir sample would be ready January 1st. There was some discussion as to the total cost of the souvenir in relation to the selling price voted on in the October meeting. Vice President Diana Treff stated that the vote passed at the October meeting would stand as is unless the Board is notified of any other additional costs in making the souvenir. In the case of additional costs, the Board would notify the members present at the January meeting and open the topic for discussion.

Vice President Treff reported that we had 16 new members recruited in the month of October. As October was National Carnival Glass Month, all members who recruited a new member will receive a table favor mug from a previous year.

George McGrew reported on the progress of the 1985 convention and held a discussion for new ideas for the convention. Diana Treff will handle room display awards, she plans on having a ballot box in the lobby.

Marge Miller was appointed Chairman of the door prize program and reported that she had already acquired some nice prizes and that the drawings will be held periodically during the convention. Marge also requested that Vice President Diana Treff relay to the Board that she would like to acquire anything that the club has in it's inventory in the way of past years souvenirs for door prizes. Diana Treff agreed she would discuss this matter with her fellow Board members.

There will be no monthly meeting in December. The club is invited to the home of Glen & Jackie Fortney on January 27, 1985. There will be a pot luck meal at 12:30 followed by the meeting at 2:00. The address of Glen & Jackie is 404 Park Avenue, Buckner, Missouri 64016, their phone number is 816-249-5208.

Diana Treff wished everyone a very Merry Christmas and then accepted a motion made by George Bolles to adjourn the meeting, the motion seconded by Viola Shikles and the meeting was adjourned.

GEORGE McGREW, Secretary Pro-Tee

## RARITIES & SELDOM SEEN

by Ivan & Betty Mitchell

PURPLE MILLERSBURG PEACOCK & URN MASTER ICE CREAM BOWL

This is one of the most beautiful bowls in our collection, it is a sofpurple, almost pastel color of base glass with Radium finish. The Millersburg factory had its own methods of how to make a stunning piece.

This is shown in Edwards "Book of Rarities" on page 74 and he praises it very greatly. The example shown in the book is in the rare green color while this is the easier found purple. Don Moore lists this piece in his "Rarities" book on page 45 and the price of \$500 on page 70.

This bowl shown has no bee and no beading on the urn. It has the typical wide panel exterior and many rayed star on the base. It measures 9" in diameter and right around 3" high sitting on a flat surface.

#### SOUTHERN CALIFORNIA CARNIVAL GLASS CLUB NEWS

The SCCGC met in Huntington Beach on Sunday, November 18th. A buffet luncheon was enjoyed by a large group of members before the meeting was called to order by President Charles Adams. Secretary Mallie Kieth gave her financial report and Vice President Valerie Light announced the program for our February meeting will be on red glass and the Hearts & Flowers pattern in observance of Valentines day,

The hosts for this meeting were Bob & Shirley Patterson. The topic for discussion and sharing was rosebowls, nut bowls and fernerys. Mike & Dee Sponsler brought a beautiful Hobstar & Feather rosebowl. Pattersons brought bowls found on a recent trip including two beautiful Leaf & Beads rosebowls in agua opal.

Charles Adams announced that Cameo Shows in Los Angles has consented to a Carnival Glass Display at their January show. Since this is good exposure for our hobby, he asked participation of members in providing display pieces as well as contribution of time at the show for two days to answer questions and care for the display.

#### AIR CAPITOL CARNIVAL GLASS CLUB NEWS

We had a nice day and a good turnout for our November meeting, there were 13 members attending. We have already began plans for the 1985 convention, a full report will be given at the December seeting. A new roster is being worked on and should be out around January 1.

We were pleased with the growth of our club this year. During the few weeks before and during our convention, we gained 22 new members. This brings our total membership to 89.

Our December meeting is always well attended with a covered dish along with the meeting. This year Nola & Steve Guthrie will act as hosts. We usually have an election of officers at this meeting but at the November meeting the officers present were asked if they would continue for another year. A motion was made, seconded and carried that they would.

DONALD E. KIME, ACCEC Secretary

Our condolences and heartfelt sympathy go out to member ED LAMPERT of Souix City, Iowa. His wife MARCELLA passed away on September 11, 1984 after a bout with cancer. Ed and Marcella have attended all of our conventions in Kansas City for at least the last five years.

CARNIVAL BLASS TUMBLERS. NEW AND REPRODUCED 1960-1984

Describes new tumblers with black & white pictures and explains how to tell the new from the old. A chart showing colors and trademarks is included.

I have been encouraged by a lot of people to write this book and now with Don Moores help, I finally got it done.

This book will help old tumbler collectors and will hopefully inspire collectors to not be afraid to buy old tumblers if they can be assured that what they are buying is old.

#### RARE FILE VASE (left), and scarce IMPERIAL'S #5 VASE (right)

The Imperial "File" vase is very seldom seen, I know of only three, but it is quite likely there are more out there. Whether this was an Imperial general line or some glassmakers whimsey, I am not quite sure. I would lean towards the whimsey as so few are known. It is quite possible that this piece could have been made from the "File" spooner of the table set. This vase is 5 1/2" tall and has a base diameter of 3 1/8". The top has six ruffles and is 4" across at the widest point. It is known only in marigold. This is not surprising, however, since the "File" table sets and water sets have also been reported only in marigold. This unusual and pretty vase was found by Elmer Gerding of Warrenton, MO.

Also shown above is another Imperial vase that is in the scarce category. This vase is sketched and described in Hartung Book 7, page 56 and list as "Imperial's No. 5". It was also listed as Imperial \$5 in old Imperial catalog data. In Kamm Book 2, page 44, Mrs. Kamm lists this pattern as "Banded Fleur-De-Lis", which does describe the pattern well. The pattern has also been reported in a bowl and may also exist in other pieces.

This vase is a very deep marigold color, 6" high, 4" across the top and 3 1/2" across the base. The base is hollowed some and contains a raised 24 point rayed star on the bottom. Around the top of the piece is a raised ring and below that a 1/2" egg-and-dart band. The background consists of tiny raised star like figures that appear such like stippling. Six large Fleur-De-Lis designs form the main motif of the pattern. Webbing is found between the petals of the motifs. A diamond point band circles the center of the piece. It is a very attractive and unusual pattern that carries a lot of detail.

#### APPLE TREE TUMBLERS, IN THREE COLORS

The "Apple Tree" is a very fine tumbler that was made by the Fenton art Glass Company of Williamstown, WV.

It has been reported only in marigold, Blue and White. You will find the White one is the hardest to locate. Perhaps a lavendar tumblers might exist, but I have not seen one. I have never seen or heard of a "Apple Tree" tumbler in green or purple. The "Apple Tree" water pitcher is the bulbous type and when

APPLE TREE PITCHER AND TUMBLER

combined with the tumblers, it makes a very striking set that any collectors would be proud to own. We think it is especially beautiful in cobalt blue with radiant iridescence. The "Apple Tree" is of standard size, about 4 inches high. The bottom of the collar base is smooth, having no star or sunburst design whatsoever. There are two bands of "I" shaped bank textured twigs that are bordered with cables. These bands are both above and below the fruit, leaves and limbs that form the central motif. A tumbler in the "Apple Tree" pattern would make a fine addition to any tumbler collection.

The "Apple Tree" marks our eighty-third edition to this series. Next month we will cover a popular laerial tumbler that is well known to carnival glass collectors as "Windmill". It is certainly one of the more common tumblers in marigold, but extremely rare in some colors, which we will cover in the next issue.

# Carnival Cameos BY DONALD MOORE

#### ENGLISH OVAL & HEART

This is an interesting piece, it has been a difficult one to identify as it looks quite different as a bowl than it does in the compote shape shown in Rose Preznick's Book IV. She suspected it was English & named it accordingly.

She may well have been right but in the bowl shape it does not look English. It is on purple base glass with brilliant Tiffany iridescence on a smooth interior. The pattern is on the exterior which is not iridized. It measures 7 1/2" in diameter. While it has no great monetary value, the flat shape & pointed edge makes it a most attractive & unusual piece of Carnival.
