** DO NOT SEND TO THE BULLETIN SECRETARY **

At 2:15 P.M., Sunday, June 23, 1985, President Bob Grissom called the meeting to order. Glen Fortney read the minutes of the last meeting and they were accepted as read. Due to no information, there was no Treasurers' Report.

There was discussion as to the location of the hotel for next years' Convention with many members present voicing their opinions.

President Grissom asked the attending members how they felt about having future monthly meetings at the Raytown City Hall; as it is centrally located, comfortable, and is provided at no cost to the Club. Most members agreed to keep meeting here unless someone would like to meet in someone's home.

There was also discussion as to future programs at the meetings and also the Annual Picnic in September.

With no further business, the meeting was adjourned until 2:00, July 28, 1985, at the Raytown City Hall.

After the meeting was adjourned, President Grissom and Cooley Miller both brought some beautiful glass to share with the members and Glen Fortney gave a program on the many colors and shapes Fenton Art Glass Company incorporated into the open-edged baskets.

Pictured is our Bulletin Secretary Marjorie and her husband Ex-President Cooley Miller.

I still don't have a picture of our President Grissom or our Treasurer Karen Engel.

PICTORIAL PATTERN PARADE

By John & Lucile Britt

INVERTED THISTLE THREE FOOTED BOWL

Last summer, while we were in California at the Charlotte & Gordon Williams' home, we took a picture of this very unusual Cambridge bowl. It was the first one that we had ever seen, although one of these in the nut bowl shape was sold at the Dr. & Mrs. Miller auction at Dayton, Ohio on September 25, 1983. Both pieces were in the green base glass color. The above featured bowl has very nice iridescence and we would consider it as rare and very desirable, as well as being a rare shape for this pattern. Actually, no Inverted Thistle piece of old carnival glass is common or easy to find. An occasional bowl in this pattern will show up and we have seen one large flat collar base chop plate. We featured this chop plate, signed with the Cambridge "NEAR-CUT" trademark, a number of years ago in this "Pictorial Pattern Parade" series. It is still the only one that has ever been reported. Inverted Thistle water sets, table sets and berry sets are also extremely rare. Many of these pieces, but not all, are signed "NEAR-CUT". We thought perhaps that you might enjoy viewing a snapshot of this rare and unusual piece.

EDUCATIONAL TUMBLER SERIES

By John & Lucile Britt

THE RIBBED SWIRL TUMBLER

This is a very nice tumbler for being such a simple designed pattern. It is unusual in that the threads or raised ribs extend out to and touch both the base and rim of the tumbler. They are raised from the surface of the tumbler approximately 1/16 of an inch. These twenty-four swirled threads flow gracefully from a southwest to a northeast position. They remind one somewhat of an old fashioned barber pole. I have seen this tumbler only in marigold and with very good color and iridescence. The bottom of the base is smooth or plain. It is slightly shorter than most tumblers, standing at 3 3/4 inches high.

I have seen only a very few of these "Ribbed Swirl" tumblers. Actually they are quite rare. The one that we obtained for our collection is the exact one that is sketched and described in Hartung Book 6 - Page 49. The maker of the "Ribbed Swirl" tumbler is unknown at the present time, but we consider it a super addition to any tumbler collection. You are going to find that one will be rather hard to locate, however.

"Ribbed Swirl" marks our 90th Edition in this series. Next month we will describe and illustrate another fine tumbler in which we hope you will find most interesting.

BY DONALD MOORE

MOONPRINT

I'm sure it was never intended for these vases and the two-piece fruit bowl to be used together as a set but it makes an interesting picture. Some ten years ago we owned a pair of Moonprint vases. When we recently bought the pair shown here, we found out it was the same set we had previously owned. It is the only set I have seen. The same is true of the fruit bowl and base. The base doubles as a compote and I have seen several of those.

This pattern was made by the Sowerby Glass Works, Durham, England. It was made in a wide range of shapes including pitchers, bowls, candlesticks, covered butter, stemmed sugar and creamer, cookie jar, plate, cake stand and covered cheese dish. Marigold is the only color known. While some of these pieces, like those shown here, are quite rare, they do not command the big buck.

RARIETTES AND SELDOM SEEN
By Ivan L. & Betty J. Mitchell

Marigold and Blue Dragon and Lotus Plates - Fenton

Let me say before we get started that these two plates are hard to come by and they are expensive.

They are both 9 1/2" in diameter and they lay very flat. Marigold and blue are the only colors in this collar based plate type. There are 1-3 of the spatula footed plates and I believe they are ice green opal. (I am not sure of this).

Both of the above pictured plates are priced in the ball park of \$700.00 to \$900.00 and are very rare.

The common colors in bowls are easy to find like purple, green, marigold, etc. with the exception of red, ice green opal, amber aqua opalescent and peach opal, the latter are much harder to come by.

Just why Dragon & Lotus are combined as a pattern I can't imagine, however they must have been a big seller, since the common colors and shapes are easy to find.

These plates are very few in number. I would say there are approximately 6-8 in each color.

* * * 1985 CARNIVAL CALENDAR * * *

JULY 20, 1985 - 10 A.M., 7605 N.W. Eastside Drive, (Weatherby Lake) Kansas City MO 64152. 50 pieces fine Carnival, excellent iridescence and color.

Dear Marge:

I am writing on behalf of the Pacific Northwest Carnival Glass Club which will be holding it's annual convention August 8-10, 1985, at the Holiday Inn, 225 Coburg Road, Eugene, Oregon.

It is going to be another good convention as we have lots of activities planned for our members & visitors attending the convention. To start off the convention we will be having our 3rd Salmon BBQ-Potluck Picnic at a nearby park. Everyone is welcome to attend and fresh BBQ'd Salmon from the Pacific Northwest will be just one of the highlights of the picnic as we've got some excellent cooks in our club.

Friday morning will be our business meeting and election of officers followed by a buffet luncheon featuring DON MOORE & JOHN WOODY in a combined program featuring glass that Don has purchased at Woody auctions. I am very excited about this and feel that it will be a program that no one will want to miss.

Friday evening in the holidome we will be having our "CARNIVAL GLASS COSTUME PARTY" which will complete an exciting Friday. Members are asked to wear their carnival glass jewelry, come in a costume from the 30's, 40's, etc., come in a parade of patterns, use your imagination, get into the Carnival Spirit, win a prize and we'll have a great time.

Saturday morning we are pleased to present a 200+ piece Carnival Glass Auction featuring John Woody as Auctioneer. One of the highlights at the auction will be the "ABSENTEE DRAGON" plate. There is something for everyone, novice to advanced collector. Red pieces, Pastel items, Plates, Australian pieces just to mention a few. For a complete listing contact John Woody Auction Company, Douglas, Kansas. Our auction will be filmed as Bob Rau, Host of "The Collectors" Television Show which is viewed in Oregon & Washington on Public Broadcast System is interested in putting together a program on auctions. I feel that this will be a wonderful way for the Pacific Northwest to promote our wonderful hobby—Carnival Glass Collecting.

Saturday evening will be our banquet where we will have yet another exciting program with Marie Capps speaking about "Rarities in Pastel Carnival Glass".

Anyone wishing to attend the convention only need contact me and I will be happy to help them with the details.

Sincerely, Karen Engel VP/Convention Chmn.

AIR CAPITAL CARNIVAL GLASS CLUB

Our club members were treated to a trip to Baldwin City, Kansas, where our hosts for the June meeting were Anna Belle and Charles Vaughn. What a treat it was to be at their home and see their glass and carvings.

We all enjoyed a covered dish meal at noon and what a nice time we had while visiting with them. Some of our Kansas City members were also present for this meeting. We needed no educational program for this meeting. Just to look at the lovely glass was an education in itself.

I think our club has had the privilege of being in more homes than any other probably. We will spend a half day getting someplace if we are invited and we have had such wonderful times with all of you. We would like to thank all of you who have invited us into your homes because we have seen such a cross section of collecting in this way.

The convention plans are progressing for our October convention and we want all of you who can to be with us in October. Lots more information will be forthcoming so be watching your mailboxes and reading your newsletters for this information.

Donald E. Kime Secretary

Dear Mr. Rettke,

Firstly, as a new member of your Association, may I express my pleasure with the Bulletin. I have found them extremely informative and interesting - just what I need to assist me in my collecting. Keep up the good work!

By the time you receive this letter the Association's 13th Annual Convention will be over. I trust that it will have been a very successful one and that all attending members had a wonderful time.

I hope that one day I may have the opportunity to attend one of the Association's Conventions.

Thank you for your assistance with my address correction.

Yours sincerely, Alan Ballash

I C G A CONVENTION

We loved the Carnival Convention held at Cedar Rapids, Iowa, June 19, 20, 21, 22. It took us a day and a half to get there. The Holiday Inn Motel personnel were all so very nice and helpful — the foods delicious. The weather great except for a storm during Banquet evening which we all ignored as we were held spellbound by Don Moore's fascinating talk. He and Connie had brought some of their fabulous Carnival about 2000 miles from California. Don would explain each piece so carefully on color, variety and pattern, he interspersed his witty, humorous jokes along and kept us all full of smiles. We had heard before about his wonderful talks on occasions we had to miss — still we never dreamed we could enjoy hearing him as we did for over an hour. If he had started over again I feel not a person would have left — I'm sure we wouldn't. He truly is a talented speaker and their Carnival defies description so why try to tell anyone not seeing it of the exceptional iridescence, the shapes and the colors brighter than a rainbow.

The whole convention was great. The Bob Lovells and their many helpers can be very proud of themselves. The Don Chamberlains had a water pitcher room with probably at least 150 beautiful pitchers - most had matching tumblers - all lined up like soldiers in a row. Dr. Allen Jones of Bristol, VA., brought 55, I believe from his collection. It was just wonderful to see a display such as this and probably never again will it be duplicated.

The room displays this year were really exceptionally nice and numbered 57 - we believe the most ever for a convention. We do appreciate everyone doing this as it does take much time and effort. The theme ideas our members think up are astounding from Corn Cribs, Corrals, Mrs. Peacock with a nest of little ones - to a lovely White Carnival display with snowy ice hanging here and there - it won firstplace too. So many cleverly done - wish space allowed each to be mentioned.

A "Show and Tell" session was held too and we all gained knowledge from it - the Auction went well - such a lovely array of plates to find new homes. We believe the Peter Rabbit hopped away with the biggest price of all.

It was a 1,473 mile trip for us. We saw many friends and enjoyed it thoroughly. We hope to go to Elkhart, IN., for ACGA in July.

Grace and Byron Rinehart, Charleston, W. VA

Dear Marge Miller:

You have taken on a demanding job as our Bulletin Secretary and I send you my good wishes. Our publication is the most important, information wise, in Carnival Glass collecting today.

I want to tell you of a recent "find"...a Green Northwood "Peacock at Urn" Master Ice Cream Bowl, mint, with marvelous gold iridescence and color. It was at an outdoor flea market held each Sunday here in Manhattan that I came upon a young man who had a blanket spread out on the cement. Among a few Art Deco items he had a pair of blue Peacock at Urn compotes, they were lovely and mint so I paid him the modest sum he asked without any haggling. Got to talking to him and he said "I thought nobody here in New York City buys Carnival Glass." I laughed and said "they don't, but I do." "Well," he said, "I have three other pieces at home and I'll bring them next Sunday." His description of a large green bowl marked Northwood, he emphasized, with a peacock on it had me really miserable with hopeful anticipation all week. You can imagine how early I was at that market the next Sunday and there it was with a little green Millersburg Cosmos plate and a green Blackberry Bramble compote to either side. It took a lot of steadying of nerves to calmly examine them, all were super mint! I asked a price for all three, I paid him his \$110 without question and left feeling not a little like a thief.

Thank you Marge and good luck.

Sincerely, James W. Moore

"CORRECTION"

In last month's newsletter it was incorrectly stated the cost of the notebook inserts was \$3.50. The cost is \$4.00 plus mailing.

DECEASED

Lorlee Salyer passed away several weeks after our Convention. I just heard of this and our condolences go to her daughter, Marie Capps.

Cooley and I first met Lorlee at Ken Osbon and she especially liked Green Carnival.

She was a lovely lady.

Just received a note from Bea Crouch of Centerville, Iowa, that her husband, Zera, passed away very suddenly on June 25, 1985, in their back yard. Our deepest sympathy to you, Bea, and may God be with you.

Dear Marge:

We especially enjoyed your first newsletter and wish you continued success. I know first hand what pressure a newsletter editor can be under when it is deadline time and you must pull it all together. Best wishes with the newsletter.

Hope to see you at the NCCC convention in July. Enjoyed the last meetings with you in Oregon. Remember the "duck lady"?

Sincerely,

Judy Kasper

Hi Marge,

Thank you for accepting this job. I know you will put out a fine Bulletin.

Cordially, Chuck Adams

Dear Marge,

Congratulations on your new job. If anyone can handle it, I am sure you'll do a great job!

Sincerely, Mary Herren

Dear Marge,

Can't understand how anyone could make a disparaging remark to you about the bulletin. It appears that we are fortunate to have another professional to continue in the HOACGA tradition of excellence. Thought it was great. Keep up the good work.

Love in collecting, Wes and Betty Strain

WHEN YOU LEAVE HOME

MOSQUITOS

Mosquitos pose a special problem for dog owners. The bite of any one of over 30 species of mosquitos can cause heartworm disease in dogs. Unfortunately, by the time signs of the disease are apparent, heartworm disease is already well advanced and difficult to treat. Preventive medication added to your dog's food is the real answer. But first, a heatworm check should be run on your dog to be certain worms are not already present. Ask your veterinarian to for more information about heartworm. Spread the word to other dog lovers that heartworm disease is a silent killer.

OLD CARNIVAL GLASS LIBRARY

CARNIVAL GLASS RARITIES - A color line approach. Lists the top 10 rarities in each color plus complete rarities price guide - 40 pages of black and white pictures - special section on whimseys - \$8.50 PP.
