### MINUTES OF THE ANNUAL MEETING FOR APRIL 1986

At 2:00 P. M., April 25, 1986, President Robert Grisson called the Annual Business Meeting to order.

Minutes of the 1985 Annual Meeting were read by the Secretary Glen Fortney and approved as read. Treasurer Karen Engel read the Treasurer's Report which was as follows:

Beginning Balance As Of June 1, 1985	#23,305.10
Total Receipts Total Dispersements	18,109.81 24,695.31
Balance As of March 31, 1986	19,109.81

No questions were asked so it was approved to be filed for audit.

A proposed change of the BYLAWS were read by President Grissom to Amend SECTION 2 of ARTICLE V - OFFICERS, QUALIFICATIONS, ELECTION AND TERM OF OFFICE to read as follows:

Section 2: Qualifications, Election, and Term of Office

Each officer shall also serve on the Board of Directors.

At the Annual Meeting the Members shall elect, from the Membership, persons to serve as Officers of the Corporation. Officers of the Corporation shall hold office for two (2) terms, on a staggered basis, commencing with the 1986 Annual Meeting.

The Vice-President, Treasurer, and Bulletin Secretary shall be elected to a two (2) year term, to expire in 1988 when their successors are chosen and qualified.

At the 1986 Annual Meeting, the President and Secretary shall be elected to a one year term, to expire in 1987 when their successors are chosen and qualified to serve a two (2) year term.

Should a vacancy in any office occur as a result of an officer being elected at an Annual Meeting to another office in the Corporation, then the Members shall, by election at the same time, fill the vacated office with a member to serve for the remainder of the unexpired term of that office and/or until a successor is chosen and qualified."

A motion was made and seconded, and after discussion, a vote by hands was taken and carried.

The President called upon the Chairman of the Nominating Committee for candidate nominees for the New Board of Directors. Those presented were as follows:

After a vote by secret ballot the New Board is as follows:

President...... Robert Grissom
Vice-President..... Nadine Paulsen
Treasurer.... Bernice Bell
Secretary..... Glen Fortney
Bulletin Secretary... Michael Basey

While votes were being counted, President Grissom called upon members of other clubs present for announcements and upcoming data on their Conventions.

The only discussion on the 1987 H.O.A.C.G.A. Convention was in regard to the Notebook Insets (Small Plates) and the Souvenir Bell #3 featuring John Fenton, Founder of Millersberg Glass. No color was discussed.

With no more business, the meeting was adjourned.

Club Secretary, Glen Fortney

### EDUCATIONAL TUMBLER SERIES

by John and Lucile Britt

### THE STRAWBERRY SCROLL TUMBLER

The "Strawberry Scroll" pattern was made by the Fenton Art Glass Company of Williamstown, West Virginia, and was produced only in the water set. The tumbler is super in every way and is highly sought after by collectors today. It is not as rare as the "Lily of the Valley" tumbler, but they are certainly not easy to find either. The "Strawberry Scroll" and "Lily of the Valley" tumblers were made very much alike, therefore I refer to them as the sister tumblers. Both of these patterns carry a band near the center of the tumbler that contains a scroll pattern and is bordered with a cable on the upper and lower edge of the band. The "Strawberry Scroll" features strawberries as their chief motif, while the "Lily of the Valley" uses flowers by that name. The base on both these tumblers are smooth and patternless. They are usually found in the marigold and blue colors. Mr. Richard Owens, in his fine tumbler book, reports one in green. In all my travels, I have never seen one that color. A green example would certainly be a great rariety in the carnival glass field. An article on the "Lily of the Valley" tumbler appeared in the August 1981 HOACGA bulletin.

The "Strawberry Scroll" water pitcher is made quite similar to that of the "Blueberry", but its curves and bulges are more pronounced than are those on the "Blueberry" pitcher. The very unusual and beautiful shape of the "Strawberry Scroll" water pitcher does a lot for the popularity of this pattern. We are certainly happy and proud to use this very fine Fenton pattern to mark our 100th edition in this series on carnival glass tumblers. Next month we will feature the "Cut Cosmos" tumbler.

### PICTORIAL PATTERN PARADE

by John & Lucile Britt

### ROSES & FRUIT FOOTED BON BON IN BLUE

The accompanying two photos show the Rare Millersburg "Roses & Fruit" Footed Bon Bon in Cobalt Blue.

Bill Edwards reports that this is only the second one of these that he has ever seen or heard of in the blue color. This one is in a good deep blue with outstanding iridescence. He states that the other blue example of this bon bon is in the McKinley museum in the State of Ohio. The "Roses & Fruit" bon bon is rare in any color, being seen most often in amethyst. The blue color adds a little extra appeal and value to any Millersburg piece.

### FROM THE EDITOR

This past year has been quite an experience for me. I appreciate the educational articles sent me to be put in the Newsletter. Without your help, an interesting Newsletter cannot be published. Also, thanks for the notes of encouragement and praise.

I chose not to run again but know Michael Basey will do a good job. Please support him and our club.

Sincerely, Marjorie Miller

### RARITIES AND SELDOM SEEN By Ivan & Betty Mitchell

### BOWL - LIGHT GREEN FRUITS AND FLOWERS - NORTHWOOD

This green bowl has a very unusual color; too dark for Ice Green, too dark for Mint Green, but too light for Vivid Green. You would have to see it to appreciate it.

However, it is a very beautiful "Fruits and Flowers" bowl. It is 9" wide and has spatula feet. Fruits and Flowers is a first cousin to 3 Fruits, the difference being that on 3 Fruits there is a clump of 3 cherries in center and fewer flowers. On the Fruit and Flowers there are not cherries in center (interior) and usually the 3 Fruits has a collar base and no spatula feet - and the clump of cherries in the bottom of bowl.

This is a mistake a lot of collectors make in defining this pattern, and I hope this will be of some help to some collectors.

If anyone has a bowl like this one, will you please let me know? I have never seen another like it.

This will bring a price of some \$400 to \$450.

### CARNIVAL GLASS OBSESSION By Ed Binstock

Perhaps you might want to print the following account in a future bulletin just to show fellow members of HOACGA that not everyone is obsessed with Carnival Glass and that other activities do occupy our time.

Earlier this springtime, our twins - kittens, that is, Amy and Blue made a double loop into our rustic farmyard chasing what I thought to be a robin or some other singing bird (fortunately we had the hen covered and the nesting swans in our pond are too ornery to mess with). Expecting to see feathers flying, I grabbed my plaid coat and hatty (it was still early in the morning glory and the lacy dew drops were a bit frosty) and tore out of our homestead's country kitchen like a buzz say - so fast it made our horses' heads turn.

Well, it seems that a one-eyed Elk had become trapped in our rather boggy bayou (near our north woods). Hearing the commotion, milady and her poppy showed up (he's in his Gay Nineties and visiting from Memphis), puzzle and question marks all over their faces, barely able to compose themselves. Apparently the stag had been driven to wisteria by a panther or perhaps a horehound and had run through our blackberry bramble picking up thistles and acorn burrs.

I approached cautiously, my stomach in French knots and butterflies, brandishing my tomahawk and African shield, but the going was slow (due to my broken arches received on duty with the soldiers and sailors when the stream of hearts overflew its banks near the Indiana Statehouse). By this time, the early morning cosmos of many stars had given way to the rising sun and a ranger, Officer Dugan, badge number 474 on his IBJ hat, comes along zig zag fashion down our garden path on his pony, Daisy, trampling our little flowers on the way.

Well, we're no fans of his when we spot his mug; ice blue eyes and little beads of perspiration. It had been his holiday and I guess he thought he was being called out on a whimsey. Frankly, we were afraid to even let out a bo peep. We just hoped he would use his tranquilizer dart, get a bulls eye and leave. But instead, showing plenty of moxie and with our wishbone of good luck, the ranger took some grape cable from our grape arbor (we grow multifruits and flowers here on the farm), swirled it around the critter in a superb drape and amazingly the captive rose. It was the pitcher of perfection!

Our lovely daughter, Marilyn, arrived like a tornado, carrying a bushel basket of three fruits, but I'm not lion, the forester in a graceful Victorian gesture, passes up the peach and pears and just forks one golden grape into his mouth like some big fish would gulp down a fly. With that, the heavy web of tension crackled and snapped. A wide panel truck showed up and began dragon the elk to the Palm Beach Zoo, where I hear they're at a real premium.

The great one-eyed elk roundup now over, we five hearts were proud as strutting peacocks and I was tempted to nippon the old corn bottle (but settled for a hot cup of rococo and a plate of fine ribs). The experience had taught us a lesson however, we were under no illusions, failure is an orphan but success has ten mums.

P.S. Later, Ranger Dugan sent our Marilyn a bouquet and a box of Fern Brand Chocolates and they're stepping out tonight. Double dutch of course!

### ROSEBOWL - NOTEBOOK FILLER

The second part of the Notebook section on Rosebowls is now available. One Hundred (100) different patterns are identified and pictured in this section. If you have not ordered the second part of the Rosebowl section, you may do so by sending \$4.00 plus \$1.00 postage to the Secretary, Glen Fortney, P.O. Box 303, Buckner, MO. 64016.

Your notebook should now contain a section on Punch Bowls, Mugs, Table Sets, Water Sets (3 sections) and Rosebowls (2 sections).

The next category will be on small plates (6 or 7 in.). So if you have any and want to share these with the other members, please contact the writer.

Again, I want to thank all of you that supplied pattern information and photographs of Rosebowls. Without your help this would not have been possible. A listing of those who helped is included with the first Rosebowl section.

It is hoped that this information will add to your Carnival Glass knowledge and will be beneficial as your reference to Rosebowls.

Bob Grissom, 7900 Crescent, Raytown, MO 64138.

### APRIL AUCTION

We could hardly wait for Tom Burns Auction April 4-5. Our first outing after the long stay home winter. We left early and stopped by Sugar Creek Bakery - then to our Amish restaurant for a late breakfast. Then on to Canton to visit briefly with relatives. After that, on to the Holiday Inn for the Auction - Cleveland, Ohio.

Almost at once, so many of the regular Carnival people came in to sign up for motel rooms. The Carnival was exceptionally good colors and very little damages. We think it a real good sale — over 140 bidding members. Room was crowded and many standing. As expected, the blue N Master punch set brought highest at \$3500. A lovely green Ivy Town Pump at \$2100. Prices held up good throughout the entire sale and feel sure Tom and the Noonans were pleased.

We really enjoyed getting out again and so good to see friends. So many states were represented.

We visited at Maple Heights before coming home and now look forward to May 30-31 when an auction is scheduled at New Philadelphia. We shall hope to be there.

Grace & Byron Rinehart, Ches. W. VA

### AIR CAPITAL CARNIVAL GLASS CLUB April 13, 1986

Francis Elder is home recuperating from surgery. Wilma Elder also is home from the hospital. Our Vice President, Steve Guthrie was hospitalized and is now home.

All of us are so excited about our upcoming trip to Booker, Texas in May. As of this writing 17 of our members are planning to attend this meeting.

Wilma Elder gave the program and what an interesting program. For those who will be attending the HOACGA convention, you will get to hear her story of how she began collecting carnival glass.

Mr. & Mrs. Cromer brought a nice little 6 inch Peacock at The Urn plate for us to look at. You could certainly tell it was one of her favorite patterns and as she talked about it we could see the gleam in her eyes. She told of where they purchased it and how proud of it she was. It is one hard to come by and we all enjoyed hearing about it.

We are looking forward to seeing all of you at the HOACGA convention.

Donald E. Kime Secretary

### THE TAMPA BAY CARNIVAL GLASS CLUB

The Tampa Bay Carnival Glass Club held its regular monthly meeting April 20th at the home of Dorothy and Art Smith in Lakeland. Fourteen members and guests enjoyed a buffet prior to the business meeting. Shirley Pfaff Conyers read the minutes of the last meeting and Dorothy Smith reported on the treasury. Art Smith announced that the Huntly Inn has been sold and is closed for extensive remodeling. All the fixtures and furniture was sold at auction and when the Inn reopens, it will be entirely new. With these facilities available, the club voted to hold its Sixth Annual Lose Your Heart To Carnival Glass Jamboree on February 12, 13 and 14 in 1987.

Art gave a program on carnival glass April 14 at the meeting of the Mid-Florida Glassaholics Club and reviewed some of the highlights at the Sunday meeting in addition to presenting a program on the Edges of Carnival Glass, showing the various ways the glassmakers finished off the edges of their glassware.

Stella Smith and Louise Miller, from Lakeland, joined the club after attending the meeting as the guests of Barbara Berry.

Arthur I. Smith

### TRIBUTE TO BERNICE ALLEN

Feeling that many HOACGA members knew Bernice Allen or "Bumma" as she was often known by her friends, I felt they would want to know that she died in March. Some of you knew of her bad health of the past three years.

Bumma was one of the earlier Carnival enthusiasts and had been an avid collector with her husband, Al, since the 60's. After his death about ten years ago, she continued to collect and attended conventions regularly. She made two trips to Australia visiting with collectors there.

Bumma will be missed by her many friends and those of us who were influenced by her knowledge and enthusiasm to get involved with Carnival glass will think of her often as we continue our hobby of collecting. Her interest in both the glass and the people who love it was about the last thing she gave up.

Sincerely, Dolores L. Fenn

### "NOTE TO THE EDITOR"

Featured in this issue is the one hundredth in the Educational Tumbler Series written by John and Lucile Britt. They have been most generous in sharing their knowledge of and accurate information about not only tumblers but also other interesting and noteworthy items. Many of us, beginning collectors when they began writing rather prolifically, have been inspired to learn and to become more discriminating in building our collections by what they (and others) have written.

Perhaps even more remarkable is their willingness to answer questions collectors have. When I have contacted them, I have especially appreciated the thoroughness in which they have responded. They are precise and accurate in their answers. I have also enjoyed the programs they have presented at conventions.

I'm sure all members will want to join me in thanking them for their work in our behalf.

Sincerely, Larry Keig

### NEWSLETTER RESPONSE

Responding to Don & Marie Martin's article in the March Newsletter, we advise owning an ice blue peacock bowl having a narrow band of opal as illustrated. Our piece has an extremely high sheen but DOES NOT have any of the rainbow coloring characteristic of carnival glass. We have other pieces of blue opal none of which have anything like the sheen on the peacock bowl. We wonder if it is possible to have a colorless spray.

Ivan & Betty Mitchell's comments on the poppy show plate also have special interest for us. We have one in a very deep blue which we display with a light behind and it never fails to thrill all who view.

Whilst writing I should report on Al Rettke's article of some considerable time back when he discussed the Aqua/opal, peacock at the fountain, master ice cream bowl. We were lucky enough to acquire one of these many, many years ago from a shop in Adelaide suburb for the princely sum of Aust. \$30. After Al's first comment, one was reported in the newsletter as having been sold at auction for US \$3000.

The HOACGA newsletter is always "Grabbed" as soon as it hits the letter box and read avidly. Should any of your members be visiting Adelaide we'd love to see them and make them welcome in our home as well as introducing them to the collectors here.

Good hunting to all, Jack & Yvonne Dennis.

### ON THE LOOKOUT

Was interested in Lawrence Hartnell's article in last bulletin. I was especially interested in the Stork Vase and its maker. Why? Because I have the Stork Vase Lamp in the pale marigold. I would be interested to hear if anyone else might have one.

It is electric and the metal base has the same design as around bottom of vase, so it looks like it was made especially to go together. Would like to hear if there are anymore.

Norma Wagner, 302 Main, Bagley, IA 50026

### H.O.A.C.G.A. SOUVENIR BELL

In 1985, it was decided to make a series of 4 Souvenir Bells. Each different bell would feature a portrait of a Famous Maker of Carnival The beautiful Circle Scroll Pattern would be used as the basic pattern on each of the bells. The bells would also include the Fenton logo.

The first bell, 1985 Souvenir, has a portrait of Harry Northwood. bell is Ruby Red Carnival. VERY FEW ARE STILL AVAILABLE.

The second bell, 1986 Souvenir, has a portrait of Frank L. Fenton, the principal founder of the Fenton Art Glass Company. This bell is made in the beautiful Lime Green Opalescent with a Marigold overspray. This bell is made in a limited quantity, approximately 350.

The 1987 bell will feature John Fenton, founder of Millersburg Glass The 1988 bell will be of a prominent person of the Imperial Company. Glass Company.

It is our belief that this series of souvenir bells will make a beautiful and collectible set of Carnival Glass Bells while honoring those responsible for the making of our favorite glass. We hope you

will enjoy this s	series of bells.	
The 1985 or 1986	Bells are \$35.00 each, plus	\$ \$2.50 shipping. John E. Bitt
