MINUTES OF THE MONTHLY H.O.A.C.G.A. MEETING FOR MARCH, 1988

At 2:00 P.M., March 27, 1988, President Robert Grissom called the March H.O.A.C.G.A. monthly meeting to order. Secretary Glen Fortney read the minutes of the January, 1988 meeting (there was no meeting in February) and they were approved as read. Treasurer Berniece Bell gave the Treasurers Report and it was approved as read and placed on file for audit.

There was discussion of the highlights of our upcoming Convention next April. We hope to see everyone there and hope everyone has a wonderful time. The Convention is a great time to renew old friendships, make many new ones, and to share our wonderful hobby of Carnival Glass!

There was also some discussion of the Clubs recent purchase of the Hartung Carnival Glass books.

We adjourned the meeting for a short time to enjoy the delicious cookies and coffee provided by Rosa Grissom.

After refreshments, President Grissom gave the Program on Green Carnival Glass. All the green Carnival made by northwood, Fenton, Imperial, and Millersburg was a sight to behold! MANY beautiful and rare pieces were shown including an Autumn Acorns plate, Peacock & Grapes plate, (N) Peacocks bowl, Thistle banana boat, and a SUPER dark green Orange Tree compote with outstanding iridescence. We thank everyone for sharing their glass with us.

Our next meeting will be the Annual Business Meeting at 2:00 P.M. Friday April 22, 1988 at the Convention. We look forward to seeing everyone then!

Glen Fortney
Secretary
H.O.A.C.G.A.

1988 H.O.A.C.G.A. CONVENTION HIGHLIGHTS

You are invited to the Fifteenth Annual H.O.A.C.G.A. Convention, April 21, 22, 23 and 24, 1988 at the Holiday Inn, 1-35 and 95th Street, Lenexa, Kansas. (This is the same location as the 1986 and 1987 Conventions.)

A special part of the Convention will be the "John & Lucile Britt Roast". John & Lucile have always been active in H.O.A.C.G.A., as well as other Carnival Glass organizations. This gives us the opportunity to recognize their efforts and help. We are also very pleased to have Floyd Whitley serve as Master of Ceremonies for the event.

ROOM DISPLAYS

One of the highlights of any Convention are the Room Displays. You are encouraged to bring a Room Display to share with others. Again this year, we ask that your display be entered in one of the five categories: SAME COLOR, SAME MAKER, SAME PATTERN, RARITIES, or YOUR OWN THEME. Knowledgeable collectors will judge the displays. Michael Basey will be the coordinator. A \$50.00 cash award will be given to the two top winners in each of the five categories. Each person having a Room Display will be awarded a Hobnail Cuspidor. This years color is Marigold, made by the Fenton Glass Company. Extra Cuspidors will be destroyed. The only way to receive one is to have a Room Display.

EDUCATIONAL PROGRAMS

I know that we will all benefit in our Carnival Glass knowledge by attending these Programs:

1. If you attended the Convention last year, you saw the beautiful display of Imperial Glass by Tony & Norene Duran. Norene Duran, Burney Talley, and Steve Davis have agreed to give an Educational Program on Imperial Glass.
2. Roland Kuhn and Donald Kime have a very outstanding collection of the "Wishbone" pattern. In the past, they have displayed some of their collection. They will be presenting an Educational Program on their favorite pattern.
3. Harold Fortney is one of our local members who is always willing to help, but maintains a low profile. He has consented to give a Program on the different sizes, shapes, and colors of the Two Flowers pattern.

5

FRIDAY EVENING

Friday evening is planned as the "Nothing Time". Since this is the Fifteenth Annual Convention, we decided to have a cake to celebrate. We are also suggesting that members, if you would like, bring a bottle of wine, produced in your own state, for the Friday evening. A large selection of cheese will be available also. Friday evening will be a time of socializing.

AUCTION

The auction on Saturday will be glass from the Ivan Mitchell collection. Those of you that have attended auctions know that the bidder with #1 on the front row was Ivan. All collectors will have an opportunity to add some pieces to their collection from this auction.

The auction will be conducted by John and LaVeta Woody. A complete auction listing will be provided.

Again this year, Audrey and Sue Magan of Owensboro, Kentucky have donated a lamp (pictured in photo above) which he made from the broken cobalt blue cuspidors that were given as Room Display Awards last year. This lamp will be auctioned at the Convention.

We hope you are making plans to attend. We are looking forward to greeting all old friends and having the opportunity to meet new collectors. Let's all make this the best Convention ever!

GOOD LUCK

Bob Grissom, President
H.O.A.C.G.A.

=====

It is deep sadness that we report that Mr. Elmer Ridings, a local member from Lee's Summit, Missouri, passed away on February 28, 1988.

Surviving are his wife Billie, 3 daughters, 2 sisters, and 2 granddaughters.

Our prayers and sympathies go out to his family.

=====

THANK YOU

We wish to thank you for all the beautiful cards, notes and expressions of sympathy that we received during the time of our sorrow from the loss of our son. Your thoughtfulness and prayers will always be remembered.

God Bless you all.

JOHN & LUCILE BRITT

DETOUR - I-435 - DETOUR

It is the season for the orange barrels, they are starting to show themselves again.

For those members coming to the Convention and using I-435 eastbound or westbound (southside of Kansas City), the Exit from I-435 to northbound *-35 is closed. The Convention Motel (Holiday Inn) is 1 mile north of I-435 on I-35.

Directions for getting from I-435 (eastbound or westbound) to the Holiday Inn:

Exit from I-435 at Quivira Road Exit (Exit 82) (Quivira Road Exit is the first Exit east of I-35), go north on Quivira Road to 95th Street, turn left, go to Motel (about 3 or 4 blocks). The Holiday Inn is next to Howard Johnsons and McDonalds.

=====

IMPORTANT INFORMATION ON THE HARTUNG CARNIVAL GLASS BOOKS

The Hartung Carnival Glass Pattern Books 3, 5 and 7, which have been out of print, are currently being reprinted and will be available around the first of May. If you have placed an order for these 3 books, they will be shipped to you as soon as they are available to us.

Also it was stated earlier that the Club is selling copies of Marion Hartungs "CARNIVAL GLASS IN COLOR". We do not have copies of this long out of print book, but DO have copies of Marion Hartungs "NORTHWOOD PATTERN GLASS IN COLOR". The price of this book is \$6.00 plus \$2.00 for postage.

Please send your orders to the Secretary, Glen Fortney, P. O. Box 303, Buckner, Missouri 64016.

=====

THE H.O.A.C.G.A. NOTEBOOK INSERTS

The second and concluding section on Small (up to 8 inch diameter) Plates to the H.O.A.C.G.A. Pattern Notebook is now available. This section contains all of the advertising (lettered) plates plus the remaining pattern plates that were not included in the first section.

The cost of this section is \$4.00 plus \$1.00 for mailing.

This is the 10th section to the Pattern Notebook. The Notebook now contains information on Punch Sets, Mugs, Table Sets, Water Sets (3 sections, one section is on Enameled Water Sets), Rosebowl (2 sections) and Small Plates (2 sections). A different section will be added each year. The Notebook is becoming a valuable reference to the Carnival collector.

The complete Notebook can also be ordered. The cost of the Notebook is \$31.00 plus \$4.00 for mailing.

Please send your order for the 2nd section of the Small Plates or the complete Notebook to the Treasurer, Berniece Bell, 1305 W. Wight, Nevada, Missouri 65772.

Robert Grissom
President,
H.O.A.C.G.A.

=====

THE 1988 SOUVENIR BELL - IMPERIAL GLASS COMPANY

The 1988 Souvenir Bell, made in a very nice Marigold color, is now available for you to order. The price is \$35.00 each, plus shipping.

In 1985, the Heart of America Carnival Glass Association decided to make a series of 4 Souvenir Bells, which would commemorate the four major Carnival Glass producing companies. Each different Bell would feature a portrait of the founder of each glass company. The Circle Scroll pattern is used as the basic pattern and the Fenton logo is on each bell.

Frank Fenton has obtained a photograph for the portrait of each founder and has obtained permission to use the portrait on the Bells. John Britt recommended the series of Bells to honor the founders.

The first Bell, the 1985 Souvenir; has a portrait of HARRY NORTHWOOD. The Bell was made in Ruby Red Carnival.

The second Bell, the 1986 Souvenir; has a portrait of FRANK L. FENTON, the founder of the Fenton Art Glass Company. The Bell is made in a beautiful Lime Green Opalescent glass with a Marigold iridescence.

The third Bell, the 1987 Souvenir; has a portrait of JOHN W. FENTON, founder of the Millersburg Glass Company. The Bell is made in Cobalt Blue (a rare color for Millersburg) with a beautiful blue iridescence.

This years Bell, the 1988 Souvenir; has the portrait of EDWARD MUHLEMAN, founder of the Imperial Glass Company. Imperial made some very beautiful Marigold glass.

We hope you have the previous three Souvenir Portrait Bells and will want the 1988 Bell to add to your set.

You may order the 1988 Bell by filling out the order form.

THE H.O.A.C.G.A. SOUVENIR BELL ORDER FORM

The 1985 (very short supply), 1986, 1987 and 1988 Souvenir Bells are \$35.00 each, plus \$2.50 shipping.

PLEASE MAKE CHECKS PAYABLE TO: H.O.A.C.G.A.

MAIL ORDERS TO: John Britt
3048 Tamarak Drive
Manhattan, Kansas 66502

I wish to order _____ 1985 Souvenir Bells at \$35.00 each plus \$2.50.

I wish to order _____ 1986 Souvenir Bells at \$35.00 each plus \$2.50.

EDUCATIONAL TUMBLER SERIES

By John & Lucile Britt

VINEYARD TUMBLERS

The "Vineyard" pattern is considered to have been made by Dugan. Shards of this pattern were found from diggings at the old Dugan factory site at Indiana, Pennsylvania.

The colors usually found are marigold and purple. One white tumbler is known, it being sold at the Collier auction many years ago. We were fortunate in being able to purchase that particular example. You will find that the purple color is usually a very dark shade and you often need a bright light in order to see the color. Lighter amethyst examples can be found, however. We have seen a few examples of these tumblers in lavender, clambroth and pastel marigold. These are considered quite rare. We might also note that five or six peach opal water pitchers have been found, but we have never seen a tumbler that we would say is true peach opalescent. In due respect to several collectors, who say they have a peach opal tumbler, I could not be convinced that they were really peach opal. Our favorite tumbler in the "Vineyard" pattern is really not carnival glass at all. It is in pink cased glass and is very beautiful. If it only had iridescence, it would be a great one, even though it is gorgeous as it is.

Vineyard tumblers continued...

Tumblers of the "Vineyard" pattern often lean to one side or the other. Two bunches of grapes, one on each side, are in high relief along with two nicely done grape leaves, one in each of the other two parts of the mold. The vine and tendrils circle the tumbler just above the bunches of grapes and leaves. The featured clusters of grapes and leaves are on a background of nobby bark-like design which resembles the trunk of a tree.

The Presznick name for this pattern is "Peacock Eye and Grape". Most collectors and authors use the name of "Vineyard", however. This article represents our 123rd entry into this carnival glass tumbler series. Next month we will feature a very unusual tumbler that is known as "Rose Windows".

JOHN AND LUCILE BRITT

PICTORIAL PATTERN PARADE

By John & Lucile Britt

OPTIC & BUTTONS SALT CUP

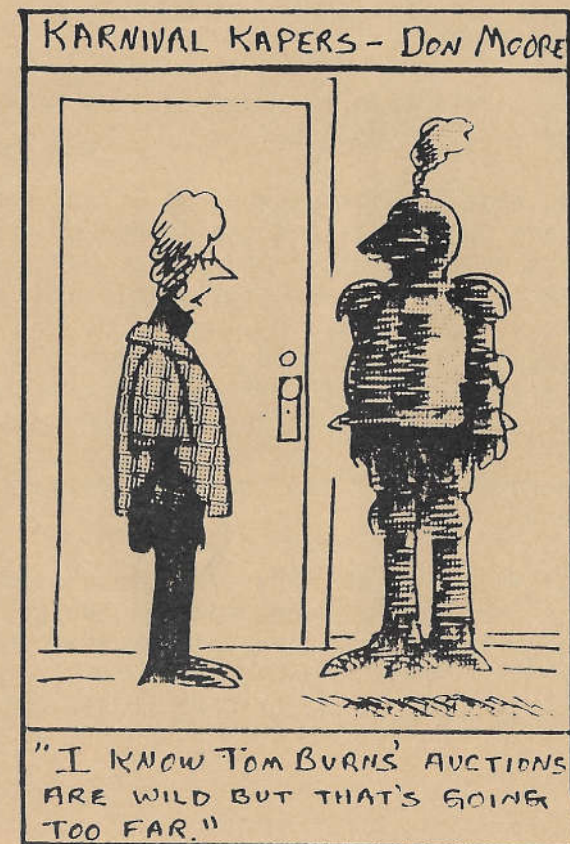

This tiny salt or nut cup is one of the cutest pieces of carnival glass that we have ever seen. Certainly, it doesn't match up to the great beauty of an aqua opal Poppy Show plate or an electric blue Embroidered Mums bowl, but it is so cute - - so tiny - - and so collectible! It is listed in an old Imperial catalog as a handled table salt. The literature provided in that catalog also stated that these were often used, along with the larger 5 inch piece, as a nut or salted almond set. Both pieces are pictured in the old catalog. The 5 inch piece is made exactly the same as the small one, only in this case, it is of a larger size.

We consider this tiny piece as very rare. It is only the second one that we have seen. The handles would be so easily broken, which is probably the reason not many of them are around today. It sets on an eight sided base that is only $1 \frac{3}{4}$ inches wide. It is $2 \frac{1}{8}$ inches high and measures $3 \frac{3}{4}$ inches across the top to the outer most points of the little handles. Another interesting feature of this piece is that it is signed with the old Imperial German cross mark. IM-PE-RI-AL

Optic & Buttons salt cup continued...

"Optic & Buttons" was one of Imperial's popular patterns back in the carnival glass era, and was made in a large variety of pieces. Their catalog stressed the point of "everything for the table in the same design". It also pointed out that the design and trade mark were patented. You might remember, that sometime back, we featured the rare "Optic & Buttons" cup and saucer. We also wrote about the goblets and wines in this pattern, at a different time. The old catalog also shows the pattern in two styles of handled cruets, or what they call oil bottles. Another one of their featured items is the salt & pepper shakers. Wouldn't they be a great find?

JOHN & LUCILE BRITT

NOTES ON CARNIVAL GLASS BUTTONS
=====

In the early years of Carnival Glass collecting, very few of us had seen or even heard of Carnival Glass buttons. The first reference to them that came to my attention piqued our interest to such an extent that Ken and I immediately began a search in hopes of adding something unusual to our collection. It already ran the gamut from green Peoples' Vase to little Stippled Rays sauce dishes (since then dispersed among other Carnival collectors).

A small number of the then prominent collectors, including Rose Presznick, already had discovered buttons. In 1965, Rose's CARNIVAL AND IRIDESCENT GLASS, BOOK III appeared with her first button section that included twenty-seven different designs which she had named.

After we had accumulated about thirty, we, on a trip through Emporia, Kansas, showed them to Mrs. Hartung. She still wasn't certain that the iridescent luster was actually fired, nor was it known where they were made. Manufacture in the United States was a part of her personal definition of Carnival Glass in her fine series of books (see SIXTH BOOK OF CARNIVAL GLASS, PAGE 7, PARAGRAPH 1).

That moment is when my determination to research them took root, in an effort to find an answer to those doubts.

There is no question now that the iridescence of a real Carnival Glass button is indeed fired and permanent, and the method of application to the surface was roughly the same as to other Carnival. For obvious reasons, the backs of buttons are seldom, if ever, fully iridized.

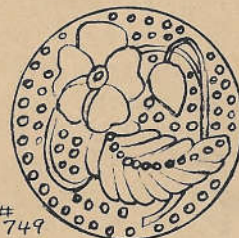

Records of the U. S. Patent Office picture the distinctive shank affixed to many of our old glass buttons. Such information gives us a step forward in identifying some of those iridescent ones that were made in this country. The very fact that such a patent was applied for suggests that other types of shanks were in use here also, and the inventing company wished to establish a competitive edge.

Of course, without doubt, many other iridescent glass buttons were imported from central Europe, but they and the ones made in the United States all share the beautiful luster typical of Carnival Glass of the early 1900's.

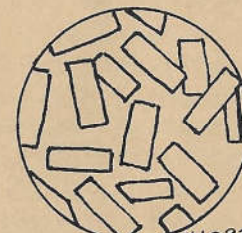

Further information in A CARNIVAL OF IRIDESCENT LUSTER BUTTONS by Ruth M. Clark.

Carnival Glass Buttons continued...

Pictured are "Silken Floral" and "Jackstraws", two examples of Carnival Glass buttons that carry backmarks with a U.S.A. patent dated December 28, 1880.

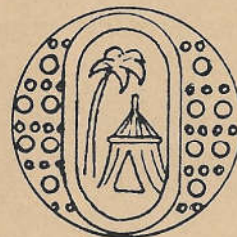

Silken Floral

Jackstraws

These other sketches are of newly found designs, not listed before.

Some time and months ago, Helen James and I began making plans to attend the Texas Convention, February 19, 20, 21, 1988.

We left Wichita on Wednesday, February 17, to arrive in Houston on the 18th. We could have made the trip in one day, but decided to break the trip up and take the two days. It began to rain in Oklahoma City and continued to do so the rest of the trip to Houston. We stopped at Turner Falls to look at the scenery. The park there is very nice. Even though not much activity this time of year the falls were still pretty. One can imagine when the grass is green and the trees a different shade of green, it would be very pretty. Our trip proceeded on reaching Dallas around 2:00 PM. It was still raining and was time for fuel and change of drivers. It was my turn to take the wheel so off we go. I will always think Helen planned it that way so she would not have to drive around Dallas. Soon we are on a four lane road on each side and the traffic is so thick one wonders how they ever get anywhere. Neither of us had been on this route so we did not know where we were going or what lane to be the correct one. The rain came down so hard you could hardly see the overhead road signs. I picked a lane of traffic and doing great had all of a sudden everything came to a complete halt. No one moving and four lanes of traffic with thousands of cars going no where. We remarked what if we had not stopped for gas and had ran out in that mess. You probably would have read where two Kansas hay seeds bit the dust on the Dallas freeway. Soon (maybe 45 minutes of complete standstill) the traffic began to creep along at a snails pace. Would you believe we had picked the correct lane and as we proceeded soon came upon a 3 car pile up which was the cause of the delay. Each exit was in our favor and no one will ever know how it happened that we were in the right place at the right time to make our exits.

We stayed overnight in Corsicana, Texas and found a very nice motel just off the freeway so made it real handy. Next morning found us on our way again with the rain still pouring down. I swore I would not drive in Houston but before I knew it we were in Houston where the motel for the Convention was being held. We checked in and as usual told them we wanted to be with the rest of the carnival glass group. As usual they said sure and checked us in for the 10th floor. We got everything unpacked, clothes hung up and the phone rang. The desk clerk said you are on the wrong floor and we are moving you to the 5th floor. We packed up and moved to the 5th floor where it turned out most of the Convention people were being put. Several came in on Thursday so we spent the day visiting and looking at Carnival Glass.

Friday, February 19th, most of the rest of the folks arrived so that day was spent with more visiting and looking again. At 5:00 PM to 10:00 PM

Kansans in Texas continued....

the Texas Club hosted a Hospitality Room on the 12th floor. Lots of good food and fellowship. Here we were all in one group so had a chance to see and visit with everyone.

Saturday morning we were able to view the glass and began the auction at 10:00 AM. It was a small amount of glass, about 115-125 pieces, but enough to keep us occupied for a few hours. There were some very nice pieces in the auction. Saturday evening we all gathered in the banquet room where the following events took place: President Doyle Green thanked everyone for coming and recognized the officers of their Club as well as those from other Clubs who were in attendance.

We then went through the buffet line for some wonderful food. After the meal, the Club auctioned off the donated items, with all of the proceeds going to the Club treasury. Hand-made quilts, afghans, tumbler shelf, and some donated glass items. The grand finale was the talk by Don Moore. He spoke on plates and had some beautiful pieces to show and talk about. The evening ended much too soon. As you know, we can all listen to Don Moore and never grow weary. The Texas Club opened up the Hospitality Room for the rest of the evening.

Sunday was a big treat for all of us who wanted to go, to Cecil and Floyd Whitleys for Open House, from 9:00 AM to 12:00 PM. It was a sight to behold.

We then began our far away homeward journey. We had no mishaps and the weather was excellent most of the way. Coming through Dallas on a Sunday afternoon was not nearly as bad as going down. Those from Kansas attending were Helen James, Don Lacock, John and Lucile Britt, Charles and Anna Belle Vaughn and myself.

We all had a wonderful time and want to thank the Texas Carnival Glass Club for all the hospitality and good times they showed us while there.

I must confess that Helen offered to drive through Dallas, but I decided I may as well see if I could do it.

For those of you who have not been to the Texas Carnival Glass Club Convention, you should make plans now to go next year. It's a lot of fun.

Donald E. Kime
President
AIR CAPITAL CARNIVAL GLASS CLUB

The March meeting was held at Ken and Marty Youngs in Winfield, Kansas. Thirteen members and guests were present. We enjoyed viewing their collection including several items acquired the day before at a sale in Wichita, Kansas. Several of our members made some good buys at that sale.

Don Kime reported he had contacted Carl Schroeder of Kendall, Wisconsin who will be our Speaker at the October Convention.

The Club officers reported the sending of a memorial gift to the Britt family.

We were glad to have Francis and Wilma Elder back with us for our meeting.

The trip to Booker, Texas to visit Dan and Elnora Sell will be on May 21 and 22, 1988. This is a trip that offers a chance to view many items that Dan and his brother and families have collected and restored over the years. We appreciate their invitation and hope many of you can work out the time for this Saturday and Sunday outing. We will leave Wichita about 8:00 AM and return can be anytime you work out Sunday. We will give you more details next month.

The Program was given by Don Kime on the trip he and Helen James made to the Texas Convention. He was kind enough to provide a written account which we have included with the newsletter.

Our April meeting will be held at Frank and Geneva Spangler's at 401 Lakeshore Dr., Newton, Kansas at 2:30 PM on April 10, 1988.

Frank L. Spangler,
Secretary

=====

We had looked forward to this meeting for many months! With a specialized collector such as Dr. Chris Reynolds on the program agenda, anticipation mounts to "near Dragons breath temperature" as meeting date approaches. After all, this Club uses a fork-tongued Dragon with five toes, (one of Fenton's finest), as its Emblem.

An ancient symbol of strength in Chinese lore, 1988 is the "YEAR OF THE DRAGON"--a perfect time to be mesmerized with Chris' adept descriptions of the complicated pattern he knows so well!

Sixty-three of the finest examples of DRAGON & LOTUS in every color and shape known to exist (INCLUDING THE ONLY KNOWN WHITE EXAMPLE, a footed ice-cream shaped bowl) were displayed in color groups. His discussion moved from familiar blues, through exotic opals, on to fabulous reds, the lone white, extending to non-iridized cobalt blue, pink and even a ceramic piece, smaller than the others, with a glued-on collar base.

The always smiling, ever-pleasant lady with Chris, his sweet wife, Jerry-- provides the slides as Chris points out the details flashed on the screen.

Al Shupert filmed this program for later enjoyment and so that any of you who so desire, may order your personal copy. Order from: AL SHUPERT, 4074 VISTA CALAVERAS, OCEANSIDE, CALIFORNIA 92056 \$24.00 INCLUDES POSTAGE.

67 members and guests attended this meeting. A carnival door prize went to Dorothy Joseph and contributed by Angie Cash. The Club awarded a meal tab for the June 12 meeting. This went to Gerry Brown. Raffle prizes were provided by the Frys and awarded to Vernon Lontz, Dee Sponsler, Patrick Lough, Andrew Spencer and Kathy Roque.

Nine St. Patrick's Day table centerpieces were provided by Jim and Margaret Halbert and awarded to the finder of the lucky penny at each table.

Gail Westphall will be our featured speaker with a program on Dugan glass at our June 12 meeting. Our annual auction will combine fun with research that day. Dean Fry and Neal Smith will combine strategy for sending consigned carnival to new homes. Join us if you can!

Respectfully submitted,
Diane Fry,
President

=====

JAMBOREE HIGHLIGHTS.....The Jamboree has come and gone all too quickly. I hope everyone had as wonderful time as Sal & I had seeing old friends and making many new ones. What a fantastic group of dedicated collectors we had this year!

Friday afternoon brought some early buying and selling of glass in the rooms. Then Friday night our Hospitality Hour and slide presentation drew a nice crowd of enthusiastic (and hungry) collectors who enjoyed the tasty snacks and lively show of "Rarities in Carnival Glass" presented by John and Lucile Britt. The Britts always come through for us with a great evening of entertainment, and we really appreciate their sharing with us their knowledge and experiences from many years of collecting Carnival Glass.

Saturday morning brought out the early birds (6:00 A.M.) to watch the unpacking and setup of glass to be offered for sale. More than 100 people attended the all-day sale. Probably one of the biggest finds of the year happened at our Jamboree when a local party (not a Club member or collector) brought in an absolutely breath-taking AQUA OPALESCENT ROSE SHOW PLATE which quickly became a part of the Britts' fabulous collection. What an unexpected treat for all present to behold. It is moments like these that make all the work that goes into the Jamboree worthwhile. Tom Burn's auction was profitable for some and fun for all. He brought some very nice glass this year and I hope he was pleased with the reception. I sure would appreciate some comments from those who attended the Jamboree. We need to know what works and what needs improvement for next year.

Due to illness, the next meeting will be held at Nick & Maria Vafiadis, 3132-D Beecher Drive East, Palm Harbor, Florida 33563. Telephone: 1-813-787-3889 evenings. Call Maria at 937-6147 days, for information.

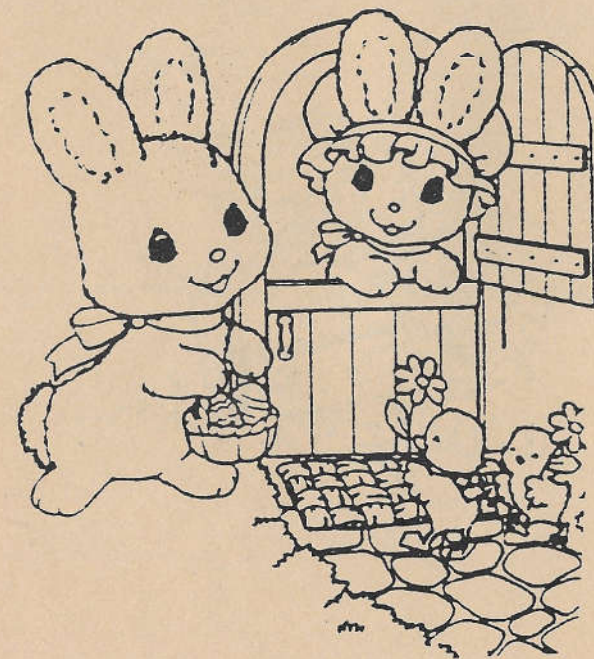

Ruth DeVito,
President

The Texas Carnival Glass Club held a mini-Convention to celebrate its' 9th Anniversary February 19-21, 1988 at the Marriott Hotel in Houston, Texas.

Eighty members and guests representing seven states took advantage of glass in rooms "For Sale" and "For Discussion", met and visited in the Hospitality Room, bid and bought at Tom Burns' Auction and Saturday night enjoyed a Bar-B-Que dinner where the guests of honor were Don and Connie Moore. Don and Connie brought some of their rare and beautiful Carnival Glass plates with them, and Don entertained and informed a most appreciative audience.

The Convention weekend wound up with an Open House at Floyd and Cecil Whitley's. A good time was had by all!

Gene Fox
Secretary
Texas Carnival Glass Club

THE (N) MARK LAWSUIT ENDS

The American Carnival Glass Association has owned the registration of the (N) (Northwood) trademark for some years.

A year ago January, the mark was illegally used and there has been a law suit at the cost of over \$8,000.00; all bills not in yet.

We have received a check for \$2,500.00 from the party which is supposed to end the case, however; they failed to properly date the check so now we are waiting for it to clear the bank.

We have received donations from many over the United States and Japan toward this project.

We invite any of you to join our Association by sending \$10.00 to Betsy Booth, 4579 Clover Hill Circle, Walnutport, Pennsylvania 18088. Our work helps all collectors.

Emma Tilton,
President

POLICY FOR ADVERTISING IN THE H.O.A.C.G.A. BULLETIN

1. All advertisements, announcements, letters or any other item to be printed, must be received by the Bulletin Secretary no later than THE LAST DAY OF THE MONTH, to insure being published in that months' Bulletin.
2. Member families may advertise ten (10) "For Sale" and ten (10) "Want Ads" per month F R E E of charge.
3. Only OLD CARNIVAL GLASS items or H.O.A.C.G.A. Souvenirs will be published.
4. Damage or manufacturing flaws should be noted.
5. All "For Sale" items must be priced; no bid items will be published.
6. A 5-day return privilege, at buyers' expense; providing it is not as advertised.
7. All postage and insurance is extra, to be paid by buyer.
8. All ads must be legible, or they will not be printed.
9. The H.O.A.C.G.A. does not accept responsibility for accuracy of any ads.

FOR ACCURACY OF DESCRIPTION, THE FOLLOWING COLOR KEY IS RECOMMENDED:

A----Amethyst	HA--Honey Amber	P----Purple
AMB--Amber	IB--Ice-Blue	PRL--Pearl/Pastel/Milk Glass
AO---Aqua Opalescent	IG--Ice-Green	PM---Pastel Marigold
B----Blue	IGO-Ice-Green Opal.	PO---Peach Opal
BO-Blue Opal or Blue Opaque	LAV-Lavender	R----Red
CLM--Clambroth	M---Marigold	RA---Amberina
EB---Electric Blue	MMG-Marigold on Milk Glass	SM---Smokey
G----Green		VAS---Vaseline

NOTE: If you wish to describe a piece as light or dark, use the body of the ad.

PLEASE USE THE FOLLOWING:

EI-Excellent Iridescence, GI-Good Iridescence, LI-Light Iridescence

EXAMPLES:

AO	EI Good Luck plate, one point broken & repaired	375.00
M	LI Peacock at the Fountain 7 piece water set, pitcher has flake	225.00
MMG	GI Peacock & Grapes bowl	360.00
A	GI Wishbone tumbler, heat check, light amethyst	47.50

It would be greatly appreciated by everyone, if you would use these codes, as suggested.

THANKS!!!!!! THE EDITOR

25
