THISTLEWOOD'S CARNIVAL BOOK NOW AVAILABLE

HOACGA members, Glen and Stephen Thistlewood, have just had their book "Carnival Glass. The Magic and the Mystery" published by Schiffer. A full size hardback in color throughout, it is packed full with the Thistlewood's unique illustrations and line drawings as well as a tremendous amount of new information on Carnival.

The book represents ten years of general research plus three years of really intensive work. It's divided into three main parts: the first section covers "The Essentials of Classic Carnival Glass" (production, iridescence, color, manufacturers, shapes and marketing). It features fresh insights into the USA Carnival Glass manufacturing plus detailed considerations of their Signature Characteristics - invaluable as a learning aid and recognition tool.

The second section covers "Pattern Themes in Classic Carnival Glass." Peacocks, flowers, fruits and on and on with much new information about the patterns themselves. Recognition features for many geometric patterns are set out. A multitude of large color illustrations plus a myriad of black and white catalog and archive graphics. US dollar price ranges given for each item photographed. A feature, too, are the many, detailed line drawings that help identify patterns. Design links with the past are explored and Carnival is given its rightful place within the framework of the Decorative Arts.

The third section is unique and concentrates on Carnival Glass production outside the USA. The areas which are covered in detail in this section are Europe, South America, Australia, India and more. There are many color photos and catalog illustrations from manufacturers such as Sowerby, Brockwitz, Eda, Riihimaki, and Josef Inwald. A great many surprises await you!

The Thistlewoods were privileged to be assisted in the extensive research covering the production of Carnival Glass outside the USA, by HOACGA member Bob Smith - a true Carnival Glass detective! Two other HOACGA members assisted the Thistlewoods. Regarding the information presented on vases, they were honored to have the assistance of Joan Doty - possibly the most eloquent of writers on the subject. Dave Doty also helped with his superb photos of several rare items that Glen and Steve were unable to "capture" for ourselves.

The book is hard back with color throughout and full size (11" x 8 1/2") on 224 pages - high quality paper. There are 326 color illustrations plus 180 black and white drawings/catalog illustrations. It costs \$39.95. ISBN 0-7643-0684-7.

You can order it from Schiffer Publications direct in the USA. Tel: 610-593-1777. You can also order it via the internet (shipping is free within the USA on internet orders) go to the Schiffer website: <http://www.schifferbooks.com/>.

WESTMORELAND'S LEAF SWIRL

By Alan & Lorraine Pickup

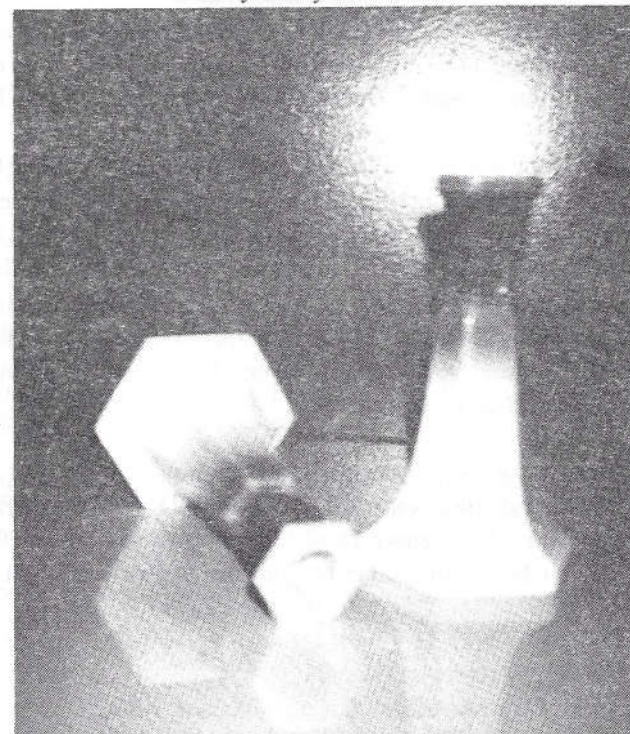

This Westmoreland Leaf Swirl shape, when pulled up from the usual lower compote configuration, looks more like a footed vase to us. We know some folks refer to these as goblet shape, but we think that anyone would have trouble trying to drink from either of the two items pictured. If there is a goblet shape, we have not yet seen one. The colors pictured are amethyst and yellow (yellow/amber). Some authors list these in deep purple, lavender, marigold and teal. We have had a teal compote, but really can't say that we have seen the other colors listed. Yellow carnival glass is somewhat out of the ordinary and makes an attractive addition to any collection.

The glass is of a sparkling quality and stands on its own merits. However, the iridescence is typical Westmoreland. Only a smidgen on the interior surfaces and we would have to describe it as a silvery sheen on the yellow glass. The amethyst vase has more of a magenta interior, blending to a silver sheen at the top. The pattern, all on the exterior, is very well executed and befittingly named. Starting with two groups of leaves on the bottom with long stems swirling towards to top rim where they terminate in additional leaves.

So whether you want to call these a tall compote shape or a footed vase, they are not only colorful but also graceful and do look great on our windowsill.

RUDY'S BEAUTIES

By Rudy Kovacs

The above photo is a pair of very rare MMG candlesticks. Mr. Edwards feels they may be a U.S. product but more research is needed.

Photos were sent for identity purposes. They are 7 1/4" in height, 3 3/4" base, 1 3/4" top. The colors range from 1/2" milk glass to a light pastel butterscotch to marigold, then a deep pumpkin. The top is a darker butterscotch with greenish gold iridescence. The shades of turquoise, red, gold and green run through the marigold.

ON THE AUCTION TRAIL WITH CHUCK

By Chuck Kremer

November 5-7, 1998: Great Lakes Club "Glass Bash" at Troy, Michigan. This convention started off with a submarine social Thursday evening followed by a Carnival Glass Trivia game in the well-stocked hospitality room. Throw in a trick question and a questionable answer or two and you have a lively game.

Harold Cox had 40 super chop plates from his collection to show us and talk about in a Friday seminar. Chop plates do not get a lot of publicity as a group, but after seeing these one has to wonder why not. Also on Friday there was the "Carnival Stories" session where four collectors told of and showed us some of their favorite or interesting pieces.

This is one of the mid-sized conventions and there was a good crowd at the Burns Auction Friday and Saturday. Not too many high end pieces in the auction, but a great number in the midrange area and they sold very well. A few examples were the six ruffled Farmyard bowl at \$6,000, marigold Poppy Show plate (\$2,050), pastel amethyst Good Luck bowl (\$800), purple Wishbone chop plate (\$2,750), amethyst Thistle plate (\$2,600), amethyst ice cream shaped Courthouse bowl (\$1,000), good dark marigold Rose Show plate (\$1,300), purple Many Fruits 7 piece punch bowl set (\$2,000), and a marigold Grape & Cable Perfume bottle at \$450.

This year Tom brought some of the best glass I can remember seeing at the Glass Bash. The sale was quick and smooth. Some glass isn't suited for a convention, and if he could have left 50 or so pieces out of this would have been somewhat better. In all fairness to Tom, part of the auction was an estate and the glass had to be sold, which accounted for these few pieces.

This was my last conventions for the year and was a very enjoyable way to end 1998.

Auction Trail Update: I want to correct the Mid-Atlantic Jamboree article as it appeared in the November bulletin. A gentleman from Maryland was there proudly showing off his latest find. He had found a marigold Apple Tree vase on a table in a mall in east central Indiana. This vase was the water pitcher minus the handle. Obviously the handle had never been applied even though there was a place for it in the pattern. A whimsey? If not, where are the rest of them?

SAD NEWS

We've received word this month of some losses in our Carnival Glass family.

Daryl and Norma Strohm (Daryl is our former Vice President) lost their youngest daughter Marsha. They thank those members who have sent condolences.

Cooley Miller (former President of HOACGA) lost his son Radford this month.

Sybil Gandy notified us that her husband Joe died this month. He was an avid collector. We are pleased that Sybil is continuing membership.

HOACGA sends deepest sympathy to those who have lost a loved one.

WORDS OF APPRECIATION

What would we ever do if we didn't have our Carnival Glass Books?

Dave Doty and Carl Burns have just published new books which Jo Ann and I will eagerly add to our Carnival Glass resource materials.

As avid collectors and lovers of Carnival Glass, we really feel indebted to all those people who have taken so much of their time and energy to research, compile, proof read and publish their books. Their efforts may or may not have been financially rewarded... but their apparent love of Carnival Glass... not money... probably prompted them to produce their books.

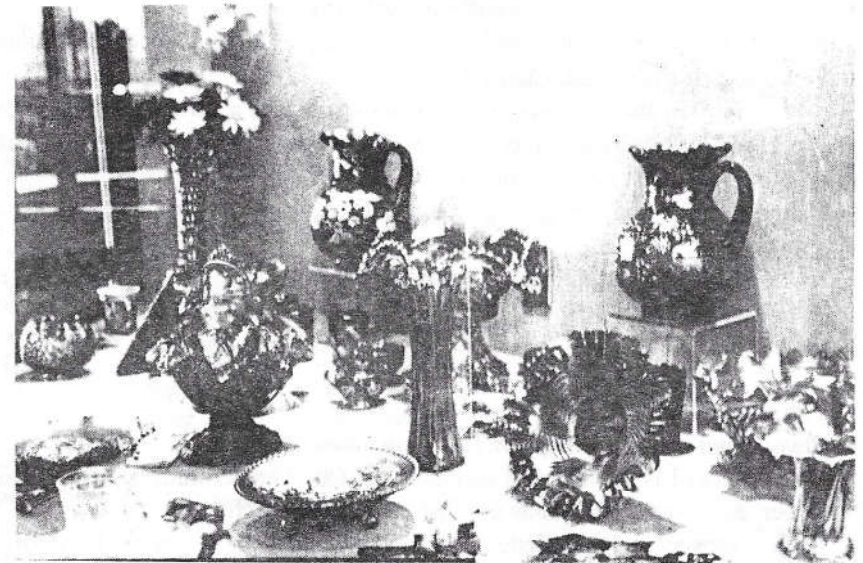

Can you imagine our hobby without Bill Edwards' Encyclopedia of Carnival Glass, Marion Hartung's Books, Tom Mordini's Price Guides, Marie McGee's work on Millersburg Glass? Wouldn't our Carnival Glass world be decidedly poorer without the significant contributions made by Williams Heacock, Don Moore, Sherman Hand? Aren't we all better collectors because of the ongoing work of Carl Burns, the Thistlewoods, Dave Doty and others who continue to add to our literature?

Space and our personal knowledge do now allow us to list all who have published valuable information on our hobby. To those listed above, and to those that we have failed to mention... we do say, "Thank You".

LIBRARY CARNIVAL GLASS DISPLAY

By Alan & Lorraine Pickup

We were asked recently if we would put some carnival glass on display at our local library. Of course we would! Most Carnival glass collectors enjoy sharing their glass. We were apprehensive about leaving our glass for the entire month but we did survive. The display consisted of about fifty pieces of glass in two cases flanking the sliding entrance doors. Also Carnival glass books were on display in one case and glass club publications were in the other case. We hope that we have sparked some interest in the glass.

CORRESPONDENCE

Dear HOACGA,

It was my husbands 37th birthday. What should I get him? He'd love a Toronado vase or Corn Husk vase. But wouldn't you know it - WalMart didn't have any. So I had to settle for something different.

So when my husband got home from work, I had his gift laid out on the counter for him to look it over. I attached a note:

"Happy Birthday Honey. I hope you like this, it's a dark marigold, almost pumpkin, you'll have to check it closely for pits or cracks. I can't find it anywhere in the books so it must be somewhat rare."

Can you guess what his gift was? Actually, it's one of his favorite snacks — a bag of cheetos.

Isn't Carnival collecting fun? Until next time.

Vicki Gearhart, Winthrop, IA

Dear HOACGA,

Please send me "The Shape of Things in Carnival Glass."

Also enclosed is my renewal membership fee, which I think will be due in December, as it was a Christmas gift last year from my children.

I have enjoyed each newsletter - reading it from cover to cover. Therefore I am renewing my membership.

Thanks to each of you for your hard work in making this newsletter First Class.

Jeanet Pietsch, Houston, TX

Dear HOACGA,

Enclosed is my check for membership renewal. As a retired senior, I enjoy the monthly booklet very much. I can't begin to express how much it has helped me this past year in keeping up with the prices of Carnival glass. My wife and I look and hunt whenever we are traveling. It is so much fun. If only we had money to support the habit.

Edward Martin, No. Muskegon, MI

Dear HOACGA,

Enclosed is our membership renewal. We enjoy the bulletin every month.
Frank & Ruth Reitsma, Ontario, Can.

Hello,

November was another fun Carnival month for us. We made a few nice purchases. Also enjoyed friends stopping by to view our carnival. We share carnival ideas and videos, literature etc., with nearby collectors. They brought us 4 new tapes to watch. (Barb & Don Chamberlain)

I couldn't pass up HOACGA's low holiday prices on videos and ordered 2 more. We will share those with other collectors too.

I just re-watched our 1998 Aqua Opal, Recollections & Imperfections - long play. Excellent video. It's a good one to share with friends. This video also has Bob Gallo sharing his views and opinions. Being a new collector, I didn't have the opportunity to know him, but by all the good words I've heard about him, I would think friends of Bob's would enjoy this video. And, if you love Aqua Opal it's got some beautiful pieces.

We spent the day at some new carnival friends - the Galvins of Cedar Rapids invited us to see their collection. They are very nice people with a lot of beautiful glass. We also enjoyed their new puppy "Annie" (she's just as sweet as her name.)

It's been a great month. It's hard to see all that pretty glass and leave without any of it. I know I've got more pieces I've added to my wish list which should be published in the wanted glass section of this bulletin.

We are enjoying David Doty's new book. I've also ordered the new Dugan book and The magic and the Mystery by Thistlewood. I saw it advertised in the November HOACGA bulletin. I'm not on the internet, so I ordered the old fashion way - I made the phone call.

I haven't received this book yet, but I heard it was a good one...

Happy Holiday Wishes To All!

Dan & Vicki Gearhart

THE WAY WE DO BUSINESS A COMMENTARY ON CARNIVAL GLASS

By Gerald Thomas

As 1998 comes to a close, I thought it would be useful to share several observations concerning the carnival glass market. Over the past few years, numerous articles and discussions have ensued within the HOACGA bulletin and elsewhere discussing the pluses and minuses of price guides, authors and occasional problems associated with buying and selling glass. While most of these discussions have left the pages of the HOACGA bulletin, they certainly have not left the pages of the Internet or the editorial pages of major antique newspapers.

Earlier this year, there were numerous discussions and debates about the reliability of antique and collectible price guides. By late spring these discussions evolved into criticism of auctioneers and the auction process. After attending a major carnival auction in October and talking to an Antique Mall operator specializing in carnival, I realized that something needed to be said about "The Way We Do Business" rather than focusing on price guides and glass auctions.

A lot of criticism has been voiced at price guides ranging from inaccurate research, authors "promoting" certain patterns and published prices not reflecting "current" market values, too high or too low. As a collector, I feel we are asking too much from the authors in this area. Glass prices do vary based on a number of factors- where the glass is sold, how well an auction is promoted and attended, and the CONDITION of the glassware. To clarify this point and to provide an example, I reviewed 1997 and 1998 prices of purple Farmyard bowls, selling from an approximate low of \$1250 to a high of \$8000. If I were an author of a price guide how could I realistically publish the price of a purple Farmyard bowl? The variances are too great. Is the bowl round or square? Crimped edge? Ruffled, - six or eight scallops, and what about iridescence quality? Price guides should be used as reference books and are most useful when market information is not available elsewhere. I did read several articles on this topic and I was surprised to see editors in antique newspaper commentaries downplay the reliability of antique price guides. I found this to be somewhat hypocritical because the newspapers had previously promoted price guides and specialized books on collecting. These individuals I feel failed to acknowledge that the antique and collectible marketplace is not perfect and certainly it is not structured. A lot of personal desires, egos and emotions are involved in buying decisions. Many purchases are made with discretionary income. If we want to arrive at correct values for glassware then we should direct our attention and focus on carnival auctions where most carnival

glass is bought and sold. In this area, I believe there must be better "marketing practices" and "rules" which we should promote. Consider the following:

Scheduling Carnival Auctions: With approximately 36 carnival auctions each year, why is it necessary to have 2 or 3 auctions scheduled on the same weekend, especially when they are in close geographical proximity to one another? As a potential buyer, I cannot attend more than one auction at a time and as a seller of glass, I don't believe I would be a "happy camper" knowing that two other collections are being sold on the same day as my collection. This is a true scenario, on many occasions I have held two or three auction brochures in my hand deciding which auction to attend or not attend. Carnival auctioneers should not schedule auctions on the same weekend unless the auctions are far apart- East Coast or West Coast.

Marketing: A lot of improvement has taken place in this area from the introduction of color catalogs, e-mail bids, phone bids, videos of merchandise being sold and Internet marketing. I'm a firm believer in using the Internet as a marketing tool and at a minimum the expensive glassware should be posted maximizing exposure to potential buyers prior to the actual auction. All color photos should have a lot number placed adjacent to the picture. Credit card purchases would make a difference.

Recognized grading standards for glassware. What standards should or should not be implemented is not for me to say. I do feel "grading" glassware prior to a sale by a disinterested third party is something that is needed. Think about it for a minute. Eggs purchased at the grocery store are graded (size and quality) which sell for under \$2.00 per dozen. Carnival glass, which sells for much more money, is not! The question is why? What is the difference between scarce, rare or not often seen as it pertains to carnival? Is a heat check one-eighth inch long next to a mold mark significant? What about a scratch the size of a caraway seed? Is a piece of glass investment quality or not? Who decides? Consider the example of the Farmyard bowls discussed above.

Managing damaged glassware: I discussed several topics in this article, but to me this is the biggest hurdle we in the Carnival glass hobby need to confront and ultimately resolve. Marketing practices in dealing with damaged glassware cause problems that it seems just won't go away. People selling glassware want to obtain the best price. Most individuals selling glass or the seller's agent (the auctioneer) will want to ethically disclose yet downplay glassware damage as being insignificant. The objective being to maximize the sales prices of glassware sold at auction. As buyers, we scrutinize glassware for any imperfection, with the objective of not getting burnt, paying too much or possibly hoping to make a purchase on the best possible terms in our favor. The ultimate question is how do

we reconcile these opposing business practices. When does immaterial or minute damage truly affect value? The old carnival we collect is 80 to 95 years old. When it was manufactured, it was done with the intent of making inexpensive glassware affordable to the masses. Old carnival does frequently contain bubbles, open bubbles near the surface, cinders, impurities, peeling on the base, hand tool marks, straw marks and yes a few minor dings here and there. Many pieces of glass are in perfect condition. I'm stressing this point because I see far too many people returning glass to the auctioneer while an auction is in progress. This practice seems to take place even when two to three hours of preview are provided prior to the auction. While I understand why a buyer would return glass when damage is undisclosed or not readily apparent, I have to question the motivation of those making large dollar purchases and not inspecting the glassware carefully prior to bidding. Adding to this controversy, I'm not sure how a pin chip the size of a black pepper ball on the base of a bowl warrants a price decrease of thirty percent or more. I believe a few recommendations in selling damaged glassware are in order:

Damaged glassware should be segregated from the perfect glassware. If a 300 piece collection is being sold and fifty pieces have some form of noticeable damage, then these pieces should be sold say in lot numbers 200 through 250, not at the beginning of the auction nor at the end. This would make auctions go faster and the auctioneers would not have to comment on each piece of glass as being perfect or imperfect.

When damage is discovered after glassware piece is sold, the glass item should not be resold but turned over to a staff member of the auction service, not to the auctioneer for resale. Returning glass to the auctioneer is a disruptive practice, which is getting out of hand. The glassware item should be offered "for sale" at the end of the auction at the high bid price or returned to the consignor for disposition.

The concepts and marketing efforts I described in the preceding paragraphs take time, effort and money to implement. It all boils down to having better quality information and care in managing the carnival glass market. The carnival glass clubs fought off trademark infringements, unethical business practices and deceptive reproductions in the past. We need to take the next step to protect glass values and the carnival glass marketplace. Your hobby and glassware investment depends upon ethics and sound marketing practices. "The Way We Do Business" depends upon you. Best Holiday Wishes and Good Hunting.

CORRESPONDENCE

Our Holiday Season has arrived early for us this year as we have been able to move into our retirement dream home located on the waterfront property we have owned for twelve years. We weren't expecting to do this for at least another year, but we decided to put our recent home on the market at a relatively high price and within two weeks it sold. Panic button time! Now we were in a rush to complete our home and to move within six weeks. It wasn't easy but we did it before any snowflakes fell.

We were never able to display some of the glass we collected for years but our new home will allow us to do that. We are looking forward to having the time to enjoy our carnival glass and to share it with the many friends we have met over the years. We wish everyone the happiest of holidays. HOACGA MONTHLY MEETING STATUS

There is **no** monthly meeting in **December**. The next regular monthly meeting of the Heart of America Carnival Glass Association will be on Sunday, **January 24, 1999** at 2:00 P.M. at the Park Lane Medical Center at 5151 Raytown Road, Raytown, Missouri. Park West of the doctors building, which is on the South end of the hospital complex. We will discuss the "ice colors" and white carnival glass. Of course, we're hoping the "ice" and "white" will be indoors only.

The November 22, 1998 meeting was attended by 15 members. Ann and Patricia McMorris, Fred Stone, and Don Lacock drove in from Topeka, Kansas. We discussed carnival glass books recently published, the 1999 convention, and possible activities for the year 2000. Charlie Mochel won the door prize, a 1998 white Orange Tree loving cup souvenir and Patricia McMorris won the drawing for our "Turkey" decoration. After a break for cake and cider, Bob Grissom led a discussion of the 25 pieces of "fowl" pattern carnival glass brought in honor of "turkey" day.

THE SHAPE OF THINGS IN CARNIVAL

By Bob Grissom, President HOACGA

ONLY 40 LEFT !!!

In 1975, Don Moore authored and published his book "The Shape of Things In Carnival Glass" which shows and describes many of the carnival glass shapes. This reference book contains 110 pages of different shapes of pieces from Banana Boat to Vases. This is a very good reference, especially for those newer collectors trying to understand some of the common terms used by collectors to identify the various pieces and in the "For Sale" ads and the "Auction" sale listings.

Don Moore is now deceased and his wife Connie donated the remaining books to HOACGA. Connie - we appreciate your donation of these very informative reference books, which are now out of print. Don was a carnival glass collector who was always helping educate by giving talks, writing bulletin articles and authoring several reference books.

The book can be ordered from, Ann McMorris P.O. Box 4361 Topeka, KS 66604-0361. The price of the books is the same as it was originally, \$10.00 plus \$1.50 for shipping.

THANKS AGAIN, CONNIE, FOR YOUR CONTINUING CONTRIBUTION TO CARNIVAL GLASS BY DONATING THE BOOKS.

HOACGA - THE FIRST 25 YEARS

Many significant happenings occurred at the 1998 HOACGA Convention. One of them was the issuance of a 90 page booklet titled "HOACGA - The First 25 Years". Our president, Bob Grissom, excerpted significant items and events from 25 years of HOACGA bulletins.

There are many humorous incidents recorded as well as officers, souvenirs, significant finds in carnival glass and other very interesting highlights of our past quarter-century.

In addition, a tally was made of each years advertisements by month and their total value. (We have ads for over \$1,000,000.00 of glass in our most recent years.) Hours of work went into this project. Several members helped.

Each member attending the convention received one. There are more copies available and we will sell them at our cost of printing and postage - \$5.00 each. **ORDER A COPY NOW! HOACGA - THE FIRST 25 YEARS**

BUYING & SELLING - RETURN PRIVILEGE ADVERTISEMENT POLICY

By Bob Grissom

One of the many benefits of being a member of HOACGA is the opportunity to buy, and/or sell, and to advertise in the monthly bulletin for pieces that you want. In order for this opportunity to be satisfactory to both the buyer and seller, it has to be one of mutual respect and honesty. To date, the officers of HOACGA have tried to set out some simple guidelines, so the buyer and seller can reach a mutual agreement as to the terms of the sale and purchase. Item #6 of the "HOACGA BULLETIN ADVERTISEMENT POLICY" states "A 5 DAY RETURN PRIVILEGE, AT BUYER'S EXPENSE, PROVIDING IT IS NOT AS ADVERTISED, OR AS DISCUSSED."

In the last few months, several complaints have been received regarding the purchase and returning of unsatisfactory and unacceptable pieces of glass. This subject was discussed at the Annual Meeting on April 23, 1998. Members in attendance generally agreed that those members who do not abide by the return-privilege policy should not be allowed to advertise in the bulletin.

Effective immediately, the HOACGA Board of Directors, in an attempt to deal with complaints, has adopted the following rules.

- If a member receives a piece of carnival, and he exercises his right to return the piece within the allowed time, the sender/seller is obligated to make a complete refund within five days after receipt of the returned piece of glass.
- If the refund is not made, the buyer can write a letter to the Board of Directors (Secretary) stating his complaint.
- This complaint will be reviewed and a letter will then be sent to the seller about the complaint.
- The seller will then be given ten days to notify the HOACGA Secretary of what action was taken to correct the complaint.
- If the complaint is not corrected within the required time, no further advertisements will be accepted from that member. Advertisements will not be allowed again until the problem has been resolved.

It is regretful that this type of action is required. It causes more work for those involved with the administration of the organization. We do not need to tolerate any unfair dealing among collectors/members. Carnival Glass collecting can only survive if members deal fairly with each other. **THERE IS NO PLACE FOR THOSE WHO WISH TO DEAL UNFAIRLY.**

H.O.A.C.G.A. BULLETIN ADVERTISEMENT POLICY

1. All advertisements of glass for SALE or WANTS must be received by the Bulletin Secretary no later than the 28TH DAY OF THE MONTH to insure being published in the next bulletin.
2. Members may advertise ten (10) "For Sale" and/or "Wants" per month. The "For Sale" Glass must be members glass and not the property of a nonmember. Advertising is at no cost.
3. Only "OLD CARNIVAL GLASS" items or H.O.A.C.G.A. Souvenirs will be published.
4. Damage or flaws should be noted.
5. All "For Sale" items must be priced: NO BID ITEMS WILL BE PUBLISHED.
6. A 5 day return privilege, at buyer's expense, providing it is not as advertised, or as discussed.
7. Postage and Insurance is to be the responsibility of the buyer, both when returning and receiving the glass.
8. The sender of the glass (be it the seller or the buyer returning it) is responsible for the proper packaging of the glass.
9. When submitting FOR SALE and WANTED ads, please write legibly so that your ad can be read; spell out words as opposed to using abbreviations. Your ad will be formatted to fit as best as possible. Items will be limited to one line, unless you are advertising less than ten items.
****IMPORTANT**** - be sure to include your name, address & phone number on the ad itself.
10. H.O.A.C.G.A. does not accept responsibility for accuracy of any advertisement.

CORRESPONDENCE

Dear HOACGA,

Please find enclosed our \$25.00 renewal fee for HOACGA. It is such a wonderful club to belong to for the people and interesting articles it provides! We were so sad to hear the passing of our wonderful friend, Bob Gallo... His keen wit, humor, and stories will be sorely missed as well as his eagerness to help new collectors. He, as well as others who have passed on recently, represent what I think this club represents - fellowship, kindness, and fun - a sharing of experiences and friendships that we feel is unique to carnival glass collectors.

CORRESPONDENCE

Dear HOACGA,

Please find enclosed our dues for continued membership. We enjoy the bulletin and read it as soon as it is received. There's always something interesting to read. We would dearly love to get over to a convention - perhaps next year.

Martin & Jan Hamilton, West Sussex, England

Dear HOACGA,

We are sending a picture of the Towers vase for the HOACGA notebook. Hopefully you can use it.

We recently went to the Fenton Glass Company and while waiting for our tour to start, we saw Howard Seufer. He offered and we accepted a personal tour by him. We had a great time on the tour and afterwards we saw Frank Fenton and were able to talk with him about new glass and the old glass. Seeing these two people and their genuine friendliness made our trip extra special.

Sandra & Billy Wilson, Cedar Hill, TN

Dear HOACGA,

Here is my renewal for membership with the club. I enjoy being a member. Keep up the great work.

After reading Bob Grissom's article in October's bulletin, I thought "Wow!" Isn't that wonderful finding such a bargain.

Well, on October 24th, my husband George and I were heading to St. Louis, Missouri to see the Rams & 49er's football game. Of course we went a whole day early so his wife (me) could shop for glass along the way. (What a guy!) I haven't lucked out in a long time, but I sure hit the jackpot that day!

Here is what I bought:

- 1) Scale Band/Stippled Rays 6" ruffled bowl in red/amberina for \$25.00
(just laying on a shelf)
- 2) A Northwood stippled Three Fruits ribbed back plate for \$135.00
- 3) A gorgeous Fenton Acorn ruffled bowl in vaseline for \$31.50

I also picked up a gorgeous RS Prussia plate for a friend for \$20.00. I'd say all in all, a pretty good day...

CORRESPONDENCE

Dear HOACGA,

Enclosed is a money order in the amount of \$16.50. This is for two items.

The first item is the book. "The Shape of Things In Carnival Glass" by Don Moore. The cost is \$10 plus \$1.50 for shipping. The second item is the booklet titled "HOACGA - The First 25 Years." The cost of that is \$5.00

This being our second year in this wonderful club, we like to be educated in carnival glass. We have been collecting for 2½ years. We have a modest collection, but with time, I am confident that we will have a nice collection. We have even gotten our children involved in scouting out carnival glass. Our next goal is to be able to make it to a convention. I can hardly wait for that!!

We will be eagerly waiting for our books. Thank you for all the work that you do.

Dave & Toni Morrow, Crown Point, IN
