## Sick Call

George Loescher is presently having major health problems. A card or note from friends would be appreciated during this difficult time and would help brighten his days. Let's remember each other in stressful times as well as in the good times we so often share together. George and Mavis are very knowledgeable about carnival glass and were some of the early collectors. They were presented with the Britt Award at the 1999 HOACGA Convention. Cards may be sent to George Loescher, W 4920 Sunset Lake Court, Sherwood, WI 54169-9755, phone (920) 989-3609.

### *A note from Betty Tecca of Auburn, Washington*

Sorry this is late – my husband is very ill with congestive heart failure. I have been very busy. Get well wishes may be sent to: Richard Tecca, Sr., 29024 38th Ave S, Auburn, WA 98001.

### *A note from Raymond Rentfrow of Bristol, IN*

Mrs. Raymond Rentfrow (Winifred) died in Sebrink, FL on Nov. 4, 1999. This is our winter place. Sympathy cards may be sent to: Raymond Rentfrow, 905 N Division St., Bristol, IN 46507.

### *A note from Larry Thorne of Alva, OK*

My beloved wife, Shirley, died suddenly from a massive heart attack on June 26. Shirley loved collecting carnival glass as much as I did. She enjoyed going to auctions and meetings. I plan on continuing the hobby that we both loved. Sympathy cards may be sent to: Larry Thorne, 805 S Sunset Dr., Alva, OK 73717.

*HOACGA extends sincere sympathy to those in the loss of their loved ones.*

## CORRESPONDENCE

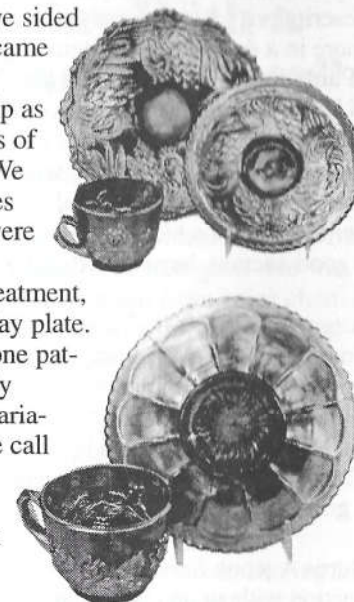

Hi! Needless to say, this \$25 renewal is well worth the money! Great club, great newsletter and especially great friends that have been developed because of this membership. This expensive, obsessive, addictive habit is a great diversion from this job in the courthouse.

Dorothy Morgan

## Fenton's Pinecone

By Alan & Lorraine Pickup • [alpickup@dellnet.com](mailto:alpickup@dellnet.com)

We were bidding on a 6 1/4" Pinecone twelve sided **smooth edge** plate recently on eBay and became involved in the age old question, what is it worth? Checking the price guides didn't help as we found there didn't seem to be any listings of a 6 1/4" size, 12 sided **smooth edge** plate. We have several Pinecone plates and sauce dishes around the house. After a quick check we were satisfied that all our pieces have saw tooth edges, some with small variations in edge treatment, but definitely not a smooth edge like this eBay plate. Okay, time for a little research on the Pinecone pattern. A write up in a 1997 San Diego County Carnival Glass bulletin mentions two edge variations without going into any detail. A phone call to a very knowledgeable small plate collector in Texas produced mixed results. She was not sure if she had one or had seen such a plate as her small plates were at the time packed away. (Thanks Eleanor)

The shapes listed in various publications cover 6 1/4" plates, 7 1/2" plates, sauce dishes and somewhat larger 7 to 8 inch bowls, ruffled, round and ice cream shaped. The small plate section of the HOACGA notebook shows the standard plates and lists the Pinecone/Wide Panel plate, but unfortunately doesn't have the picture. So we will include a picture of this saucer in this article. We consider the Pinecone 6 inch plate with the Wide Panel reverse a saucer that was sold with a Wreath of Roses punch cup in Fenton's advertisements shown in the 1911 Butler Brothers catalog. The two regular plate sizes have no pattern on the reverse, other than the three mold marks. The saucer on the other hand has a reverse pattern, Wide Panels, and also has a multi rayed pattern in the Marie area. This Pinecone saucer has a smooth 1/4" band surrounding the pinecone pattern. Bill Edward's 7th edition shows this Pinecone saucer. We believe that this can be found either flat or with a slightly rolled up edge. This is also found in ruffled sauce. See our November 1998 article on the Pinecone/Wreath of Roses cup and saucer marriage.

All the usual colors can be found. Colors listed are blue, amethyst, green, marigold and amber. There is also a listing of a Russet bowl? Russet was an exclusive Northwood color, we thought. Other colors that have to raise your eyebrows are lavender and sapphire. Did we get the eBay plate? No, although we had the high bid, the plate didn't meet the seller's reserve price. So we end up still not knowing what the value is on that twelve-sided smooth edge plate.

## On the Auction Trail with Chuck

By Chuck Kremer

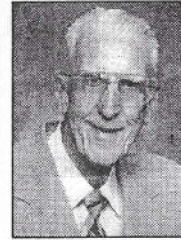

If you search the internet auction sites, you occasionally see some off-beat descriptions and humorous spelling. Mickey Reichel inadvertently added one more in a description for item 262 in his August 19 sale catalog. It read: "Pumpkin M - N Puppies Pickle Dish - Hot Pattern." I could accept the typo "U" for "O", but the "ies" was the icing on the cake. I couldn't resist the temptation so I e-mailed Mickey, "I would like to bid on the puppies, but you didn't state how many, their sex or whether or not they had been neutered." You guessed it! I didn't get a reply from Mickey and I didn't submit a bid on this item. I did get a nice blue Double Loop creamer in the auction. I heard he had a good auction, large crowd and a shortage of pie for lunch.

August 24-26, 2000: The Great Lakes Carnival Glass Club held their convention at Lansing, Michigan, this year. The date change permitted my attending this year, but apparently it wasn't convenient for some as the attendance was off somewhat from prior years. They always start the convention with the free sub and salad snack followed by the Carnival Questions and Answers game on Thursday evening – a good get-acquainted evening and a nice start to what was a good friendly convention.

Burns Auction Service had a nice auction for us, and they conducted a snappy auction without any bumps along the way. I thought prices were about average – about average to me means some good and some not so good. Some prices included the purple square ruffled Farmyard bowl (\$5500), the 7 piece purple Imperial Grape water set (\$650), an 8 ruffled Mikado compote that Tom called powder blue/marigold (\$600), and a cute little European 5 piece Samovar set at \$850.

Like the ACGA convention, someone had to visit the emergency room at the local hospital at this one too. Ruby Lough tripped over an uneven entrance to the hotel and fell, breaking her arm. A shoe lace almost got me into trouble. After breakfast Friday morning I noticed an untied shoe lace when I paid my check and stopped to sit on the "bench" next to the cashier area. A casual glance said it was a bench, but in reality it was a swing. The swing went one way and I hit the floor. Luckily no damage.

This is what I call a regional convention, and as usual it was well conducted and enjoyable.

## Help Celebrate Frank M. Fenton's 85th Birthday With a "Birthday Card Shower"

On December 1, 2000, Frank M. Fenton will celebrate his 85th birthday. Frank began working at the Fenton Art Glass Company in the mid-1930s. After the death of their father, Frank L. Fenton, in 1948, Frank became company President and his brother Bill became Vice-President. For several decades, Frank was deeply involved in every area of Fenton glass. He was ultimately responsible for all aspects of glass production from color chemistry and product design to work scheduling and labor negotiations! Frank served as Chairman of the Board from 1978-1986 and then retired to the position of Historian.

For many years, Frank has been a great friend to glass collectors. He has given numerous talks and informative seminars at club conventions, and he has helped many clubs with convention souvenirs made by Fenton Art Glass. Dozens of books on American glass mention Frank in their "acknowledgements" sections, and he has been very generous in sharing his time and expertise with many aspiring authors and glass researcher.

You can help us celebrate Frank's birthday. We'd like to surprise him with a "birthday car shower" on the big day, Friday, December 1, 2000.

Please do not put Frank's name on the outside of the envelope! Send your card addressed as follows:

James Measell, Associate Historian  
Fenton Art Glass Company  
700 Elizabeth Street  
Williamstown, WV 26187

Fenton employees will decorate the office area with the birthday cards you send. Imagine Frank's surprise when he comes to the factory on December 1, 2000!

The above information was supplied by James Measell for inclusion in the Bulletin.

THE BOARD OF DIRECTORS OF HOACGA WOULD LIKE  
TO ENCOURAGE ALL MEMBERS TO PARTICIPATE IN THIS  
"BIRTHDAY CARD SHOWER". FRANK HAS BEEN A  
TREMENDOUS HELP TO CARNIVAL GLASS COLLECTORS  
AND THE VARIOUS ORGANIZATIONS.

# HOACGA Research Project Continues – Plaid

By Eleanor Mochel

We appreciate your participation in the Nippon pattern project and will be reporting the results in the near future. About 55 households reported. We hope more members will participate as we continue with another pattern.

Fenton's **Plaid** pattern has been chosen for our research pattern for September. Presently, the Plaid pattern is known in the following colors; amethyst, blue, green, marigold and red. Bowls are known in ice cream shape, ruffled and squarish. It is also known in plates.

Remember to pull out the form and complete it in the *very near future*, so we do not have to repeat it the second month. If you do not have any plaid pieces, just mark "none" on the form and send it to me. Thanks for your participation.

## CORRESPONDENCE

Dear HOACGA,

My name is Beverly Benson, I'm 23 years old and I have been collecting carnival glass for about 2 years now. All of my pieces are marigold and many have been passed down to me by either my grandmother (Ruby Stewart) or my aunt (Martha Lawson, who is also a member of your club), she is the one who got me interested in carnival glass. I collect mostly marigold because I find it is the least expensive and also because I love the color. For the past 2 years, I have gotten the greatest thrill on finding new pieces when I'm out shopping, here in Scottsboro. We have a once a month Flea Market and I have found several pieces there. My pieces are not of great value, but I do hold them dear to me all the same! My grandmother gave me 6 Iris and Herringbone glasses. Two weeks ago, I found a pitcher to match them. I know it's not an expensive pattern but I love it! She got the glasses from a friend who had them in a brown paper bag in her shed! **Not a chip** on one of them! I have about 120 pieces total, odd pieces, including candlesticks, tumblers sm, pitchers, lots of bowls, saucers, vases, creamers, sugars, nappys and punch cups — what can I say, I love the stuff! Well I just wanted to write and say hello. You have a great club and I love your bulletins. I cannot wait to get my next one as they have so much information in them.

Sincerely,  
Beverly Benson

## **ACGA Convention American Carnival Glass Convention**

*By Grace Rinehart*

Our ACGA convention was well attended at Parkersburg, WV Holiday Inn. I did not hear the number of registrants, but all rooms sold out. Many came on Tuesday to take the boat cruise Tuesday evening which was real nice. 95 attended that 2 hour trip up and down the river in perfect weather. After that I hurried to get "Patriotic Red" display set up at 2 am on Wednesday. Had to get up early for the Fenton Glass Tour at 8:15 am. It was so nice to see glass being made and also see the big glass museum, The Fenton Shop is just great too.

Wednesday night there was one ice cream party with cookies, etc. in the hospitality room. Bea Woodham came to do it from New York. A very efficient lady who had it open nearly all the time. A great big thank you to her and those who helped treat us all so well.

Thursday, Mr. Fenton had lots of Fenton items on a table to talk about. We learned much on the Fenton patterns, etc. Business meeting at 2 pm. We have a new Editor in Tom Mordini as Joan Anderson wanted to retire after serving several years. Tom Burns was inducted in Hall of Fame. At 7 pm, a large display of Cambridge Glass was set up with Eddie Radcliff and Mark Richter giving the program and answering questions. Soon as it was over the walls were taken down to show the auction glass which is always pretty. Auction 9 am Friday, maybe close to 150 bidders. When it was over about 2:30 or so the room had to be set up for the banquet at 6:30.

I had to box up the carnival and be ready for the banquet. Not much rest at a convention. The tables were decorated so nice with centerpieces made by Lori Radcliff using candies like flowers. Someone at each table got the centerpiece to take home by having closest birthday. Some were sold along with whimsey auction after banquet. Also a nice bottle of maple syrup was donated by Harry Atwater of Canada. They have a maple sugar company. These Canadians are the nicest people and it troubles me they pay dearly to come to the U.S. with money so de-valued. (Mr. Fenton bought the syrup for \$55.00.)

A long table of Aqua Opal carnival glass was set up in the banquet room. Such a beautiful sight to see some of the most rare items, seldom ever seen by most of us. One estimate I heard was a value of over \$650,000 on 98 pieces. Several members contributed to the display.

It was a great convention. I don't get very involved in the carnival world anymore so I was happy to see the good friends we have found through our

carnival glass hobby. Next year it will be at Greensboro, NC July 7-10, 2001. Some mighty nice collectors there so it will be a good one. I was home at 10 am Saturday. Eddie Radcliff got me there and back. If not for the Radcliff's, I'd have been homebound. Sure has been a fast 2000 year. Thankful to be here to share it.

Just remembered I forgot to list display winners: 1st - Larry & Helen Young, 2nd - Harold & Doloris Wagner, 3rd - Grace Rinehart, 4th - Eddie & Lori Radcliff, 5th - Bill & Carol Richards. I know I never got to see all the displays, and I didn't hear how many there were. Thanks to all who took the time and trouble to do this. I had time to get our red all settled again on their shelf in the cabinet. I did not get that pretty little red piece at the auction. I loved it but sat on my hands to keep from bidding.

## Frolicking Bear Tumbler

By Bob Grissom

Last month's bulletin contained an article about the Frolicking Bears pattern, taken from the "Carnival Glass News and Views" written and published by O. Joe Olson.

This month's bulletin contains some additional information written about the Frolicking Bears tumbler. This information appeared in the October 15, 1982 "Carnival Glass News and Views" by O. Joe Olson.

### BACKGROUND OF THE BEARS TUMBLERS

The first Bears tumbler appeared at an Ohio flea market about 1950 and then found its way from a collector in Indianapolis into the Rev. Leslie C. Wolfe's collection then in Newman, IL. For over 15 years, only one Bears tumbler was known. It reigned supreme from about 1960 to 1975. Wolfe accepted the tumbler as part trade in a business transaction. He accepted the tumbler with little enthusiasm because it had poor color and because in that day the average tumbler cost was only \$1 to \$2.

Wolfe permitted Mrs. Hartung to sketch the tumbler, and it appeared in her Book 3, published in 1962. When Wolfe sold his tumbler collection, he advertised the Bears piece for \$900.00. Most collectors considered the price inflated and only hoped to find a specimen.

Mrs. Dorothy Willrett, dealer in DeKalb, IL, purchased the tumbler and put it in a bank safety deposit box. After a few months, she sold the rarity to Mary Elizabeth Collier.

Sam Roebuck outbid everyone for the Bears tumbler at the mammoth 1976 Collier auction. The price paid was \$3,500.00.

### THREE BEARS TUMBLERS FOUND WITHIN A YEAR

The unhappy scarcity of Bears tumblers lingered on. Then, within an 11-month period, the spell was broken and three additional tumblers were found.

A second tumbler was found by Hazel Rawls, a dealer of Orange, Texas. She was enroute to the 1981 Chicago Mart antique show when she stopped in Indianapolis to visit a former collector who was selling her glass. The tumbler Mrs. Rawls found was reported in September 1981.

The third and fourth tumblers were the direct result of a sketch written and circulated by Terry Kovel in her, May 1982, syndicated column which "rang a bell" for two persons. They corresponded with the Kovels who put them in touch with carnival collectors who enabled them to sell their Bears tumblers at good market prices.

The third tumbler was found in Atlanta, Georgia. It came from a farm auction near Hunterstown, Indiana. Ten miles north of Fort Wayne, which Bleke attended as a teenager. Robert C. Bleke was born at Hunterstown and attended the Eel-Perry Consolidated school near Hunterstown. He recalled the auction sale that took place about 40 years ago. He said, "Farm sales were one of the relatively few interesting events on the farm."

He said that teenagers of that day were primarily drawn by the old furniture. "Few glass items came up at our auctions," but Bleke was drawn to a tumbler, light green color. The joyful mood of the bears was captured in the pattern of the piece. He had no competition for the tumbler which was sold to him upon a bid of 25 cents. His grandmother, who lived with the family, was partial to pretty glass. She had a shelf over the kitchen sink and the tumbler remained there about fifteen years.

Bleke enrolled at Swarthmore College, Swarthmore, Pa., where he earned a degree in management psychology. When he went to college the tumbler remained at home in Indiana. When his grandmother died, he gathered some of his personal belongings, including the tumbler, and took them to Durham, N.C., where he took graduate work at Duke University.

He became associated with a mid-west firm as management psychologist and remained there until ten years ago when he organized his own firm with offices on Peachtree street in Atlanta.

Upon reading the Kovel feature about the Bears, the Blekes wrote to Kovel in Cleveland, Ohio, enclosing a color print of their tumbler. The Kovels referred Bleke to the Editor who gave them an update on the market for Bears carnival glass.

The discovery of the fourth Bears tumbler had read the Kovel feature in the Kansas City Star. They were Mr. and Mrs. Leroy F. Lightheiser, a retired couple residing in Raymore, Mo (suburb south of Kansas City). (Note: There is no listing for any one with this last name in the present Kansas City Telephone directory)

They had obtained the tumbler from and estate sale of her nephew, William (Bill) Godfrey of Independence. "I went over to see what Bill had to sell," she recalled. He had a large display of various items including an unusual tumbler priced at \$1.00 that turned out to be the Bears pattern. "I bought it because I thought it was attractive and interest provoking," she explained.

When visited at his home in Independence, Bill Godfrey explained he was not a carnival collector and not a collector of any kind of glass at that time. He traced some of his relatives, including a grandfather and grandmother, who had lived most of their lives in Indiana, and another relative who had worked as a glass-maker, also in Indiana.

Mrs. Lightheiser wrote to the Kovels in Cleveland asking for a competent appraiser. She was directed to John Woody in Douglass, Kansas. Woody made an appointment with the couple at their home in Raymore. They considered Woody's offer and accepted cash for the tumbler. Mrs. Lightheiser was asked if she considered herself a carnival collector. She replied: "Not really, although I have ten or twelve pieces that have been in the family."

Neither of the owners were carnival collectors.

The rare tumblers were pursued separately by John Woody, well-know auction manager and auctioneer of Douglas, Kansas. He paid a large sum for each rarity.

### **TUMBLERS INVENTORY**

According to and article in the HOACGA "Educational Series II", by John Britt, there are six known tumblers. All of the tumblers are the same color, a smokey olive green.

1 - Tumbler - Owned by Cecil Whitley. This is probably the first tumbler found and was the one owned by The Reverend Leslie Wolfe. It was originally sold to Mary Elizabeth Collier of Tennessee. Sam Roebuck bought it at the Collier auction. Sam sold the tumbler to Cecil Whitley. All Floyd & Cecil wanted to buy from Roebuck was the tumbler. In order to get the tumbler they had to also pur-

chase the Green "Peoples" vase (only one known) and Peach Opal "Farmyard" bowl (only one known).

1- Tumbler - Owned by Randy & Jackie Poucher. They bought it from an ad in the Antique Trader. Mrs Rawls of Orange, Texas was the owner.

1 - Tumbler - Bob Smith purchased it at the auction of the Bob Gallo estate, Burns auction, in 1999.

1 - Tumbler - Jim & Yolinda Lewis purchased it at the Joe Corruthers auction, by Mickey Reichel.

1 - Tumbler - Sold at a Woody auction in 1999 to a Missouri collector. This tumbler is damaged. (This was not one of the two original tumblers Woody purchased)

1 - Tumbler - Bob & Geneva Leonard purchased their tumbler from Bob Gallo. This was the first tumbler that Bob Gallo owned. He purchased it from an Antique dealer in Indiana.

If anyone has any additional information to add to that presented here, please send it so we can update the Frolicking Bears history and inventory.

### **THE MARIGOLD FROLICKING TUMBLER FACT OR FICTION?**

This article appeared in the November 15, 1977 "Carnival News & Views" by O. Joe Olson.

This is the story about the only known marigold Bears tumbler that had a life-span like a falling star. It is a far-out tale. It is stranger than fiction.

The first and only known marigold Frolicking Bears tumbler was discovered by Mr. and Mrs. Joe C. Corrothers of Maumee, Ohio, in a home in north-central Indiana in mid-September, 1977. Joe Corrothers, a director of the International Carnival Glass Association, described the circumstances and the tumbler.

He said the owner had a few pieces of carnival for sale, none priced over \$20.00. Obviously he did not recognize the pattern of the rare tumbler which he sold for "a few dollars."

The tumbler might have been easy to overlook for an average collector since none was known in marigold. All three Bears water pitchers are in dark green base glass, mostly with poor iridescence. The only known Bears tumbler is also in dark green glass.

### **Possessed Great Iridescence**

Corrothers said the marigold Bears tumbler had "fantastic" iridescence on the body of the specimen but the raised figures of the bears were nearly bald as though the iridescence either had worn off or the color had never taken properly.

Mr. & Mrs. Corrothers, who have one of the outstanding collections in the nation, do not specialize in tumblers. For the last year or so they have been assisting Mr. & Mrs. Floyd M. Whitley of Houston, Texas, find better tumblers for their specialized collection. The Whitleys began collecting seriously after attending the Gaida auction in February 1977. Mr. Whitley is in the oil and gas business.

Joe Corrothers telephoned Whitley about the rarity. Whitley expressed an interest in owning it and Corrothers promised to send it along for inspection. Corrothers was aware the only known green Bears tumbler had sold for \$3,500.00 at the Collier auction in February 1976 at St. Louis, so Corrothers put a ball park figure of \$5,000.00 on the marigold tumbler. The tumbler, incidentally, had a small chip on the base, Corrothers said.

A week or so earlier, Mrs. Whitley had purchased two corn vases and another small carnival piece from Mrs. Faye Corrothers. Her husband, Joe, packed these for shipment. He used a double corrugated box, nested the pieces in foam rubber and placed each piece in a coffee can. He placed the three cans on a layer of ball-crumpled paper at the bottom and filled in with more crumpled paper. There was plenty of room, so he placed the marigold Bears tumbler in foam rubber in a fourth coffee can on top of the bottom layer. He said he thought no one could miss seeing it there.

The package was sealed and addressed on top. It was registered and value declared at \$3,300.00.

Corrothers was not aware that Whitley had not told his wife about the marigold Bears tumbler. Whitley later told Corrothers that he thought he would receive the tumbler in a separate box addressed to him and that he planned to hold it back for a Christmas surprise.

Mrs. Whitley signed for the package at their Houston home. Her husband was at the office. She thought the package might open more readily from the bottom, so she flipped it over and opened it that way. Beneath the crumpled paper she found the three coffee cans containing the three items she was anticipating. Since a trash pickup was near, she removed the cans, replaced the packing paper in the box and put the box outside near the garage.

Three to four days later, when the Corrothers had not heard from the Whitleys, Joe Corrothers telephoned. The Whitleys were astounded to learn that the rare tumbler also had been in the box which had gone to the city dump the same day it arrived.

#### **Woody Learned by Accident**

Auctioneer John Woody accidentally learned about the discovery of the marigold Bears tumbler when he telephoned Corrothers about other business in mid-September. A week later, when Woody called again, the tumbler had been lost.

The Corrothers and Whitleys were shaken by the incident. Joe and Faye Corrothers, apparently, were the only collectors who saw and handled the rare piece outside of the original owner in Indiana. They did not take a picture of it before sending it off to Houston.

While the Corrothers had only a few dollars invested in the tumbler, it was valued by them at upwards of \$5,000.00. The post office could not be held liable for the loss since the registered package was delivered presumably in good shape and properly signed for. Obviously there was a breakdown in communication and a misunderstanding.

Whitley, who confirmed his version of the loss in telephone talks with the editor and Charles Mochel of Kansas City, Kansas, said that he and Corrothers were negotiating the loss. However, one thing was certain. Whatever the monetary consideration agreed upon, both Whitley and Corrothers would much prefer to have the tumbler than the cash.

IS THIS FACT OR FICTION? ----- ONLY THE REST OF THE STORY CAN BE TOLD BY FLOYD OR CECIL WHITLEY.

## **Air Capital Carnival Glass Club**

**Please join us October 12 thru 15 for  
our 18th carnival glass convention**

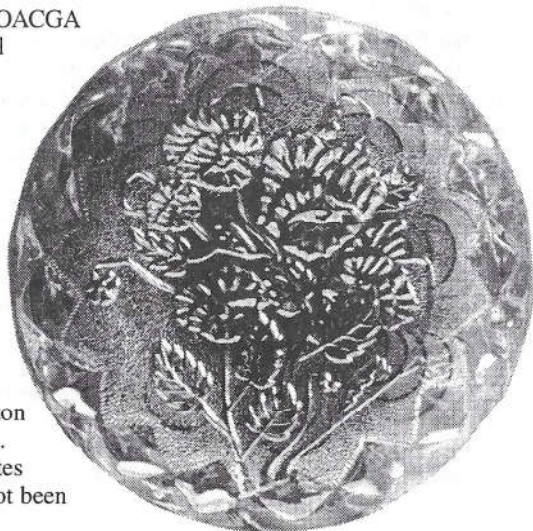

**A super auction on Saturday, October 14, from the Mickey Reichel Auction Company. We will have an educational program on Friday and a featured speaker for the banquet on Saturday evening.**

**We have a super raffle piece donated by Mickey Reichel. It is an aqua opal Daisy & Drape Vase. Tickets can be obtained from Randy Thach, 4500 N. Ridge Road, Wichita, KS 67205. Tickets are one dollar each or twelve for ten dollars. For hotel reservations, contact Donald Kime at 1-316-733-8424.**

## HOACGA 2000 Souvenir Imperial "Pansy" 9 inch Plate

For the Year 2000 Souvenir HOACGA made a Plate using the Imperial "Pansy" pattern. The plate was made, in cobalt blue, by the Fenton Art Glass Co. It is as pretty as any souvenir made so far. The iridescence is very bright and shows nice on the cobalt blue background. The plate was pressed from the mold that L. G. Wright company made from the original Imperial "Pansy" pattern. When L.G. Wright Company sold all of their molds, the Fenton Art Glass Co. bought this mold. Most of the original Pansy plates were ruffled. The pattern has not been made before in this color.

Only 219 of these souvenir plates were made. Two Hundred have already been sold. If you have not ordered your plate, you should do so before they are all gone. The plate is dated "2000". The price is \$37.50 each plus \$3.50 for shipping. **Do not miss getting one of these souvenirs.**

## HOACGA Monthly Meeting

The August 27, 2000 monthly meeting of HOACGA at the Prairie Village Community Center was attended by 17 members.

**BUSINESS MEETING** — Secretary Ann McMorris read the minutes of the July 23, 2000 meeting. Approved.

Treasurer's report by Cliff Ball — There were 4 deposits for total of \$2300.50 and 4 disbursements for \$2621.81. Total cash on hand and CD - \$31,747.79. Report was approved.

President Bob Grissom report: (1) He will meet with hotel management concerning blocking dates for HOACGA conventions at Embassy Suites, KC, MO for 2001 thru 2005. (2) Bob and Imogene attended the Pacific Northwest Carnival Glass Convention and had a great time meeting many collectors, attending the various functions and the auction. (3) birthdays and anniversaries - Lucile Britt birthday, 50th anniversary for the Strohm and Mayes. (4) Bob will be contacting Frank Fenton regarding the 2001 HOACGA souvenir.

Daryl Strohm is working with KC Star representative and will place an ad in KC Star inviting new collectors of old carnival glass and current members to attend the HOACGA monthly meetings.

Cliff Ball reported on his research on whether it would be feasible for the club to offer foreign members the opportunity to pay their dues by credit card. For the club to do this, it would require purchase of special equipment at considerable expense. Consensus was this project would not be in the best interest of the club.

**VASES PROGRAM** — A total of 50 vases were brought by Grissom, Mochel, Ball, Cox, Lacock, Kramer, and Vest. Each one identified the various vases they had brought and the group had a lively discussion and question session. There were foreign vases, various patterns and colors and many different shapes and heights. It was most interesting to learn how each vase had been acquired and the history when known.

**NEXT MONTHLY MEETING** — Date - September 24 (Sunday); Time - 2:00 p.m.; Program - Candlesticks; Location - Prairie Village Community Center

Doorprize of a Cobalt Blue Pansy Plate was won by Charles Mochel. Refreshments were a Chocolate Zucchini Cake brought by Don Lacock, and 2 cakes and soft drinks and coffee provided by Ed Kramer.

Respectfully submitted,  
Ann McMorris, Secretary

- 35-58. 6" Mlburg Blackberry Wreath 6 Ruffled Sauce Ò Dk. Mari. (radium; nice)
- 35-59. Maker(?) Rolled Ribbed 2 Pc. Tumble-Up Ò Mari. (scarce)
- 135-60. 10" Tall x 4-1/8" Base Fenton Rustic Squatty Flared Mid Size Swung Vase Ò Dk. Mari. (really neat shape; some call these Millersburg)
- 45-61. 9" Fenton Holly 8 Ruffled Bowl Ò Blue (nice example)

## Club News & General Information

The newsletter is published on the 15th of each month. The Heart of America Carnival Glass Association is a Not-for-Profit organization registered in the State of Missouri.

Members are encouraged to contribute articles for publication in the newsletter and to advertise carnival glass for "sale" or glass "wanted". Articles may be educational in nature or about collecting experiences, or letters of interest to the membership. Other carnival glass organizations may announce their meetings and/or conventions. Auctioneers who are members may announce their future auctions. Members may announce their upcoming carnival glass educational books, price guides, and other pertinent publications; after the initial announcement the information will only appear in the bulletin "Resource Section". All items submitted for publication will be published in the next month's bulletin or as soon as possible. The final decision to publish the articles will be made by the Board of Directors. Some articles may be edited prior to publication. Articles of an offensive nature or articles intended to discredit individuals will not be published.

Membership is \$25.00 U.S. & Canada, \$40.00 Foreign per family or individual. All monetary amounts quoted are in U.S. dollars. Membership year starts the month your dues were paid. All checks are to be made payable to HOACGA and mailed to the Secretary, as listed on the inside front cover. All articles and items for publication in the bulletin are to be sent to the Bulletin Secretary whose name and address appear on the inside front cover.

## HOACGA Club Information

The purpose of the Heart of America Carnival Glass Association is to promote the growth and continuation of the Carnival Glass collecting hobby and to provide support to the many collectors by providing current information about the hobby.

Growth is accomplished by supplying educational information for the collector and soliciting new collectors into the hobby.

A Convention is held annually in April in conjunction with the annual meeting (Convention date always includes the 4th Friday). Some of the activities provided at the convention are:

- Members provide Room Displays with glass from their collection.
- Members are encouraged to bring glass for Sale.
- Educational Seminars are provided by members.
- A Major Carnival Glass Auction is provided.
- The Convention offers members an opportunity to meet new collectors, renew old friendships and enjoy discussing carnival glass with other knowledgeable collectors.
- A banquet is held with a Carnival Collector as our Speaker.
- A Hospitality time is provided by the club. This is a time of relaxation and visiting with other members.

It takes the support of all collectors and members to promote the hobby in order that its growth and expansion can continue.

In order to obtain our objective, the members must financially support the organization. The Heart of America Carnival Glass Association receives its financial support through the Annual Membership dues and the sale of the following.

- **Membership Dues** – \$25.00 per year U.S. & Canada. \$40.00 per year for foreign. The Membership Year is from the date of joining to one year later. Dues are set by the Board of Directors to support the publication of the monthly bulletin, typing, printing and mailing.
- **Educational Series – Book I** – 148 articles with pictures (black and white) on a variety of Carnival Glass Patterns.
- **Educational Series – Book II** – 180 articles with pictures (black and white) of Carnival Glass Tumblers.
- **Educational Series – Book III** – 150 articles with pictures (black and white) of Bon Bons, Bowls, Drinking Vessels, Novelties, Rose

Bowls, and Table Sets. Also included is a listing of 500 rarities.

- **Hartung Carnival Glass Pattern Books** – A set of 10 books identifying Carnival Glass Patterns. These books are a must for all Carnival Glass Collectors, especially for the beginner. These are the only complete set of books available that identifies the majority of the carnival glass patterns. Sketches are in black and white.
- **Pattern Notebook** – A notebook containing sections on Mugs, Table Sets, Rosebowls, Water Sets (including painted sets), Plates (small, regular & chop), Compotes (large, regular & small), Punch Sets and Vases. Each section of the notebook identifies each pattern with a COLOR picture along with information about the Maker and colors of each different pattern.
- **Souvenirs** – Periodically HOACGA makes a souvenir to be sold to members. Souvenirs have been made since 1974, a few of these are presently available. They are listed in the center section of the bulletin. Each year that Souvenirs are made, Whimseys are also made and sold at the convention banquet.
- **Video Tapes** – Video Tapes of educational programs given during the various conventions are available. A complete listing of the available video tapes are shown on the Order Form, which is part of this section of the Bulletin.

September 2000

## Millersburg Compotes

by Robert Grissom

### Motif Series

### Heart of America Carnival Glass Association

September 2000

Many collectors prefer glass made by Millersburg, often considered the "crown jewels" of carnival. Compotes are among the prized shapes. They range in size from some of the smallest to some of the largest pieces in carnival glass; from the Leaf & Little Flowers and Olympic compotes to the giant Peacock and Urn. The Big Thistle punch bowl could also be considered a compote; it is a one-piece affair and no cups have ever been found.

The book *Millersburg Glass* by Marie McGee identifies twenty different compote patterns. Compotes were made in the common Millersburg colors of amethyst, green and marigold, plus an occasional blue and vaseline.

Some information for this article has been provided by Charles Mochel and Tom Mordini.

**Acorn (top).** The most common color here is vaseline, with perhaps eight known. There are also examples in amethyst, green, and marigold.

**Fleur de Lis.** This one is green and the only example known in any color.

**Peacock and Urn.** One of the most dramatic pieces known in carnival, this compote is always ruffled and found mostly in amethyst and green—marigold is quite rare.

**Hanging Cherries** is 7" tall and found with three different top shapes: square, round, and oblong. The round comes in amethyst, green, and marigold with one blue known. Two known with the square top. The oblong has been shown in a book on carnival.

**Tulip** stands about 9" tall and has no pattern other than the exterior flutes. Known in amethyst and marigold, it is the same shape as the Flowering Vine.

**Ohio Star.** This pattern is usually associated with the more often seen vase. About six of these compotes are known—only in marigold.

**Flowering Vine** is 9 inches tall. One each is known in amethyst, green, and marigold.

**Deep Grape** (right) is 7 inches tall and known in three different top shapes: Square and round which are found in amethyst, green, and marigold and a rosebowl shape known only in green. In addition, there is one ruffled example in amethyst.

**Olympic.** This one is only three inches tall. One each in amethyst and green are known. The compote mold is the same as for Millersburg's Leaf and Little Flowers except for the interior design that shows a wreath pattern and star in the center.

**Hobstar and Feather** whimsy compote in amethyst is probably close to the shape of the piece of glass as it came out of the mold. It is seen most often in a rosebowl shape and infrequently in a spittoon shape or a pulled up vase.

**Rosalind variant** (above). A very rare compote, 6" tall, and known in amethyst and green.

**Rosalind.** This one is 9" tall. Two each are known in amethyst and blue, three in green, and one in marigold.

**Hobstar and Feather.** This compote, 5" tall, was made only in marigold. The pattern was made in more shapes than any other Millersburg pattern.

**Dolphin.** Obviously this compote was named for the three dolphins that support the bowl, not the pattern on the interior—which is Rosalind. Colors known are amethyst, blue, and marigold, with only two known in blue.

**Boutonniere.** One of the more common Millersburg compotes, the Boutonniere is found in the typical colors of amethyst, marigold and green.

**Poppy** (at right) is also found in the standard Millersburg colors, though marigold is difficult to find, and the compote is occasionally seen in a flattened salver shape.

**Wildflower.** Two shapes are known in this 6" tall compote; straight and flared sides. The flared are found in amethyst, green, marigold, and a single vaseline example.

**Strawberry Wreath.** This compote is about 3" tall. Colors are amethyst, green and the single vaseline shown here. Note the unfilled leaf shown in the center back. Two compotes with straight sides are known: one each in green and marigold.

Glass courtesy of Don and Becky Hamlet, George and Mavis Loescher, Tom and Sharon Mordini, Pete Peters, Seeck Auctions, and Harold and Dolores Wagner.

# Location for HOACGA Meetings

We will meet at the Prairie Village Community Center at 7700 Mission Road, Prairie Village, KS.

Sunday, September 24, 2000 2:00pm

Sunday, October 22, 2000 2:00pm

Sunday, November 26, 2000 2:00pm

## HOACGA Bulletin Advertisement Policy

- All advertisements of glass for SALE or WANTS must be received by the Bulletin Secretary no later than the 28TH DAY OF THE MONTH to ensure being published in the next bulletin.
- Members may advertise ten (10) "For Sale" and/or "Wants" per month. The "For Sale" Glass must be members glass and not the property of a non-member. Advertising is at no cost.
- Only "OLD CARNIVAL GLASS" items or H.O.A.C.G.A Souvenirs will be published.
- Damage or flaws should be noted.
- All "For Sale" items must be priced; NO BID ITEMS WILL BE PUBLISHED.
- A 5 day return privilege, at buyer's expense, providing it is not as advertised, or as discussed.
- Postage and Insurance is to be the responsibility of the buyer, both when returning and receiving the glass.
- The sender of the glass (be it the seller or the buyer returning it) is responsible for the proper packaging of the glass.
- When submitting FOR SALE and WANTED ads, please write legibly so that your ad can be read; spell out words as opposed to using abbreviations. Your ad will be formatted to fit as best as possible. Items will be limited to one line, unless you are advertising less than ten items. **\*\*IMPORTANT\*\*** - be sure to include your name, address & phone number on the ad itself.
- H.O.A.C.G.A. does not accept responsibility for accuracy of any advertisement.

### Use the Following Abbreviations for Glass Description If the color you have is not listed here, please spell out color

A	Amethyst	EG	Emerald Green	P	Purple
