## 2001 HOACGA Souvenir

In 1977 the HOACGA Souvenir was the "Good Luck" hatpin holder, in "Flame Red", made by the Smith Glass Co. In 1980, it was the made in "Ice Green" made by the Fenton Glass Co. This year we have asked The Fenton Glass Co. to make the hatpin holder in Vaseline Opalescent. The date will be changed to indicate the year 2001. Not many pieces of Carnival Glass were made in Vaseline and even fewer were made in Vaseline Opalescent. I was at the Fenton factory on February 27th to see the hatpin holder made. I got to see some samples of the color. It is a beautiful piece of Carnival Glass. It has a very nice pastel iridescence and the opalescence is very good. I believe any member will be glad to have one or more of this souvenir. Only 200 to 225 pieces will be made.

The Room Display award, the "Hobnail" spittoon, and the Banquet Table Favor, "Orange Tree" Wine will be in the same color.

When you purchase a Souvenir you get a nice piece of Carnival Glass plus you are helping to financially support the organization. A member can order as many of the hatpin holders as you want.

The price of the Souvenir is \$50.00 plus \$5.00 for shipping. Make checks payable to HOACGA. Hatpin holders will be shipped about May 1, 2001.

## 2001 HOACGA Notebook Insert Vases — 6th Section

By Bob Grissom

The HOACGA Notebook Section for 2001 will again identify vases. This is the 6th and final section on Vases. Another 85 to 90 patterns are reported. This section contains additional Non-U.S. vase patterns, and identifies many of the Brocaded pieces, along with patterns that were not previously reported. With this section, a total of about 425 different vases have been reported. Probably all of these vases are reported in other publications, but no other single publication contains as much information as these six sections. Each different pattern is identified with a colored picture. Even after reporting on 425 different vases, there are still, patterns that are not shown.

This information is only possible with the help of many members that have supplied photographs and other information. This is a good example of what collectors are doing to help promote their hobby of Carnival Glass collecting.

If you do not have all of the previous five Notebook sections on Vases, then you are missing a lot of valuable Carnival Glass information.

The 6th section may be ordered by using the Convention Registration Form, which is included in this Bulletin. Any of the previous five sections may be ordered by using the Order Form which is included in the colored section of the Bulletin.

## CORRESPONDENCE

Bulletin Secretary,

We would like everyone to know of the passing of Emil Hanenkrat, a long time carnival collector and club member. Emil passed away March 7, 2001. He would have been ninety-one years old on April 15. He lived in Waynesfield, Ohio.

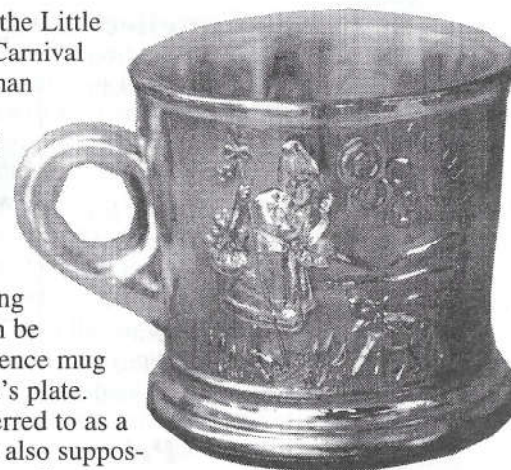

Thank you,  
Norm & Barb Archer

## Little Bo Peep

By Alan & Lorraine Pickup • [alpickup@msn.com](mailto:alpickup@msn.com)

We don't know a lot about the Little Bo Peep pattern. In early Carnival Glass books, such as Sherman Hand's 1978 book "The Collectors Encyclopedia of Carnival Glass", it was referred to as a possible Northwood pattern. But today we are inclined to credit Westmoreland as being the maker. This pattern can be found in a marigold iridescence mug and an extremely rare child's plate.

The plate is sometimes referred to as a cereal bowl. The mugs are also supposedly found in clear glass as well as mugs with flashed on colors. Some years back we recall two colored Bo Peep mugs that were sold in a John and Lucille Britt auction here in St. Louis.

Marigold mugs are not difficult to find but the problem is finding one with a nice strong marigold color. Many mugs leave a lot to be desired on the quality of the iridescence. The plates or bowls are so seldom seen that you had better buy it if you find it, regardless of the color or lack of it.

Westmoreland Glass started out as the Specialty Glass Co. and apparently was failing before it got started. The West brothers, Charles and George, bought into the company in 1889 and the company name changed to Westmoreland Specialty. The early production of glass centered around what was referred to as "packers goods", such as candy containers and mustard jars. We have early Westmoreland mugs (not carnival glass) with paper labels still intact that read "Prepared Mustard, mixture not injurious to health. Westmoreland Specialty Co. Grapeville, PA." Could the Little Bo Peep mug have started out life as a mustard container?

The child's plate shows up in the 1924 Butler Brothers wholesale catalogs in crystal glass called the "ABC baby plate". The mugs, however, were advertised in 1927 and 1929 as the "Little Bo Peep" mug in iridescent glass. Apparently the plates and mugs were not paired together as a child's set.

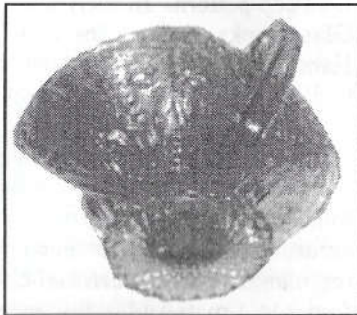

Don't confuse the "Little Bo Peep" plate with the "Stork ABC" plate. They are both very similar in shape and both have the ABC's from A to Z and the basic numerals. They seem to show up occasionally at the antique malls. The marigold "Little Bo Peep" plate is another story.

## Bon-Bons With Obscure Reputations

By Diane Fry

### Panelled Holly

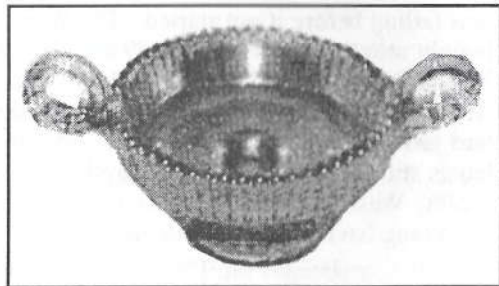

Seems that this “bon-bon” is shaped from the sugar in a breakfast set, with Alaskan iridescence on the inside only. Holly design on the exterior detracts from its overall desirability, perhaps, but the pedestal foot is certainly a redeeming feature, along with the clarity of the un-iridized glass. These offer the Northwood trademark on most examples found, but the popularity ranking is low/moderate. A 1909 wholesale catalog featured this bon-bon. It is known in marigold, amethyst and green.

### Prisms

We could call this “an orphan” in the crowd!.....For a time many years ago, writers attributed this bon-bon to Millersburg. Another of the early writers claimed it for Northwood. However, in a recent conversation with one of our more up-to-date authors, an emphatic disclaimer took place. It is now our understanding that such as this came from Westmoreland!

At one time, we owned a perfectly gorgeous marigold example with undisputed radium finish-clear handles. Amethyst has been found, and possibly green exists. It is not a piece given notice in price guides to any large degree, so it is very difficult to say how many turn up for auction on regular basis. Prisms is 7 1/4" across the handles and only 2 1/2" tall. An intaglio design on the underside of the bowl shows nicely through to the interior. An ornate star appears under the base.

The circular handles are surely different from other bon-bons, and they have a nicely “prism’d” effect on the edges.

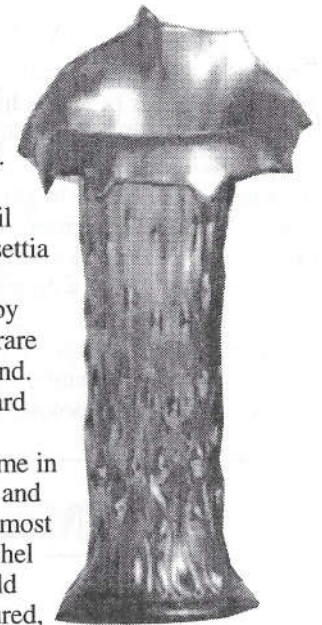

Obscurity is by no means a hindrance to unusual and relevant beauty in either of these cases!

## A Little Something for the Lunchbox

By Yvan & Ruby

It all started with a find in a flea market in the summer of 1999. Nestled amongst many Indiana Glass new carnival pieces on a table was an old Imperial green Homestead plate, mint and \$10.00. It continued a little later at a Burns auction in Hagerstown, Maryland, where I had to fight a mail bidder to eventually win a nice electric blue Poinsettia and Lattice bowl, much more than \$10.00, add 2 zeros... The last part happened when a collector by the name of Ron Archer, in California, showed a rare piece on the internet carnival club that he had found. It was an Amethyst Northwood Tree Trunk standard vase, in the Jester’s Cap shape. This was early November 1999. He had a great picture that left me in awe. I have a definite weak point for the pattern, and here was a piece long rumored but never seen by most collectors. A marigold one sold at a Mickey Reichel auction for \$3200.00 in 1997 and another marigold one is rumored but not confirmed. Nothing ventured, nothing gained, I emailed Ron to inquire if it was for sale and proceeded to make a rather low offer. Basically, I offered all the money left in my carnival piggy bank. I even told him that I might be his long lost brother. He responded that yes it was for sale but that I was short 4 piggy banks.

Thrilled that it was indeed for sale, though in desperation, I offered him some trade options: my left arm, the Christmas presents under this year’s tree, a variety of Carnival pieces, including the Homestead plate and the Poinsettia bowl. Turns out I had unknowingly outbid Mr. Archer himself for that Poinsettia bowl in Hagerstown: he was the mail bidder. A bowl like this one was something he had been trying to acquire for many years. Amazingly, the Homestead was something else he had a serious craving for, unbeknownst to me. These two pieces I offered among others in a trade.

Ron has two great arms, would not dream of depriving my kids of their Santa gifts, he saw his chance. He took it and the trade was on. Fearing to trust the post system with such a rare piece, and being an airline employee, one week later I took my daughter for a 1 hour visit to Los Angeles. We met Ron 50 feet away from our arrival gate at LAX. A lot of smiles were traded in the bar that day and Ron says my eyes did a “Roger Rabbit” when he unwrapped the vase. Two days and six planes later I was back in my bed with a tired grin on my face. Gotta agree with Ron on this too: Dang! I sure do love this hobby too, Mr. Archer. And, a special thanks to the Northwood employee, who almost 100 years ago, left the factory with “A little something in his lunchbox”.

## Last Call for Response on Survey?

By Eleanor Mochel

This is the third month we have had the same items for our research project. The response for tumblers has been adequate but the response on the Pitchers and Goddess of Harvest Bowls has been almost nothing.

If I knew some magic to get people to reply I would use it, but obviously I don't. I think the spirit of participating must come from having a love for the glass, wanting to know as much about it as possible and be willing to share the knowledge with others.

So once again, I am asking each member to complete the form and return it to me as soon as possible. If you are wondering if this really means you, yes, it does. I'll be looking for your response. Thanks!

## Membership Dues

By Bob Grissom

The cost of the monthly bulletin is exceeding the \$25.00 annual membership dues by about \$5.00 per member. This is brought about by increases in postal rates, preparation and printing costs, and the cost for preparing and printing of the quarterly colored insert, which was added in December 1999. After considerable discussion, the Board of Directors meeting on February 22, 2001 voted to increase the annual membership dues to \$35.00 per individual or family, effective June 1, 2001.

We discussed reducing the number of bulletins to only 6 per year and/or discontinuing the color pages. The bulletin is the major source of communicating information to the members. For many it is the only Carnival Glass news they receive for months at a time. Therefore, we do not believe these were the options that should be pursued. We regret having to make this increase but we feel that it is something that is necessary to maintain the information source that we all want.

We know this is not the type of information that members want to receive. It is only through viable Carnival Glass organizations that we will be able to maintain and promote this hobby that we all enjoy and have considerable investments in.

It will eliminate a lot of work for the secretary during the convention, and it will expedite the registration. **THOSE MEMBERS WHO RETURN THEIR REGISTRATION FORM WILL HAVE THEIR NAME ENTERED INTO A DRAWING FOR A SPECIAL PIECE OF GLASS TO BE GIVEN AT THE CONVENTION BANQUET.**

**JOHN & LUCILE BRITT AWARD FOR EXCELLENCE IN CARNIVAL GLASS** — It is always a pleasure to announce the honorees for the JOHN & LUCILE BRITT AWARD. This year the well deserved honor goes to **Tom and Sharon Mordini**. Tom and Sharon are members of most of the carnival clubs. They have been active members of the Lincoln Land club where he served as Bulletin Secretary. Tom is presently the Vice-President of ICGA, and Bulletin Secretary of ACGA. They publish the "Mordini" Carnival Glass Price Guide, the listing of glass that sold at auctions for the preceding year. They have served as Educational and Banquet speakers at many of the Conventions. In the true JOHN AND LUCILE BRITT tradition they are always willing to help in whatever capacity they are asked.

**ROOM DISPLAYS** — You are encouraged to bring glass and set up a room display. Room displays should be set up in your room window, so they can be viewed and judged from the outside. Room displays are always an important, enjoyable, and educational aspect of the convention. With the room displays we are always able to see some outstanding pieces of glass along with some very unique ways of displaying it.

A \$50.00 award will be given to the winner in each category, and a \$100.00 award will be given for the Room Display judged as the best overall. The best overall display will be judged on originality, creativity, and its overall appearance. Each display will receive a Hobnail Cuspidor. Displays are to be entered in one of the six categories.

**AUCTION** — The glass to be auctioned on Saturday will be from the collection of Danny McFall, plus a few pieces from another collection. The Burns Auction Service will present the auction. We are told that one of the pieces in the auction will be a Marigold Fenton "**Coolemee**" plate. The collection will have something for all collectors. This will be one of those "Must attend" auctions for 2001. The Burns Auction Company will send the complete details of the auction at a later time.

**BANQUET** — We are pleased to have Floyd & Cecil Whitley as our Banquet speakers on Saturday evening. Cecil will be presenting some fascinating stories about her vast collection of tumblers, and Floyd will review the history of the Peoples Vases and some "believe-it-or-not" tales. Their talk will be most enjoyable and amusing.

**SILENT AUCTION** — The silent auction will be set-up just outside the two elevators on the second floor. If any member wishes to donate a piece of glass for the auction it would be appreciated very much. ## HOACGA Pattern Notebook

*By Bob Grissom*

The Pattern Notebook was started in 1980, with the first section being on Mugs. Each year since, except in 1992, a different section has been added. The purpose of this information is to assist the collector in identifying the various pieces of Carnival Glass. Each section identifies the Patterns, Maker, Colors, and other pertinent information, and shows a colored picture of the pattern. This year 10 different sections will have been completed, showing a total of about 1150 different items and their patterns.

These 10 sections are:

Mugs	One section--- showing & describing 24 patterns.
Table Sets	One section--- showing & describing 40 patterns.
Water Sets	Three sections--- showing & describing 167 patterns. (The third sections shows and identifies many of the Painted Sets)
Rosebowl	Two sections--- showing & describing 101 patterns.
Chop Plates	One section--- showing & describing 40 patterns.
Small Plates	Two sections--- showing & describing 98 patterns.
Regular Plates	Two sections--- showing & describing 81 patterns
Compotes	Two sections--- showing & describing 113 patterns
Punch Sets	One section--- showing & describing 36 patterns
Vases	Five sections--- showing & describing 341 patterns. The Fifth section contains many of the Non-U.S. patterns,

The Sixth section will be printed this year (2001). It will contain about 80 additional patterns. Many of the Non-U.S. and Fostoria's Brocaded patterns are shown and described.

Any of these sections can be purchased separately. The sections are priced and an order form is available in the colored page section of the monthly Newsletter. The information contained within these sections will be of great help to you as a collector. If the knowledge you gain from it helps you in buying just one piece of glass, that, could be worth a lot more than the cost of the information.

## HOACGA Club Information

The purpose of the Heart of America Carnival Glass Association is to promote the growth and continuation of the Carnival Glass collecting hobby and to provide support to the many collectors by providing current information about the hobby.

Growth is accomplished by supplying educational information for the collector and soliciting new collectors into the hobby.

A Convention is held annually in April in conjunction with the annual meeting (Convention date always includes the 4th Friday). Some of the activities provided at the convention are:

- Members provide Room Displays with glass from their collection.
- Members are encouraged to bring glass for Sale.
- Educational Seminars are provided by members.
- A Major Carnival Glass Auction is provided.
- The Convention offers members an opportunity to meet new collectors, renew old friendships and enjoy discussing carnival glass with other knowledgeable collectors.
- A banquet is held with a Carnival Collector as our Speaker.
- A Hospitality time is provided by the club. This is a time of relaxation and visiting with other members.

It takes the support of all collectors and members to promote the hobby in order that its growth and expansion can continue.

In order to obtain our objective, the members must financially support the organization. The Heart of America Carnival Glass Association receives its financial support through the Annual Membership dues and the sale of the following.

- **Membership Dues** – \$25.00 per year U.S. & Canada. \$40.00 per year for foreign. The Membership Year is from the date of joining to one year later. Dues are set by the Board of Directors to support the publication of the monthly bulletin, typing, printing and mailing.
- **Educational Series – Book I** – 148 articles with pictures (black and white) on a variety of Carnival Glass Patterns.
- **Educational Series – Book II** – 180 articles with pictures (black and white) of Carnival Glass Tumblers.
- **Educational Series – Book III** – 150 articles with pictures (black and white) of Bon Bons, Bowls, Drinking Vessels, Novelties, Rose

Bowls, and Table Sets. Also included is a listing of 500 rarities.

- **Hartung Carnival Glass Pattern Books** – A set of 10 books identifying Carnival Glass Patterns. These books are a must for all Carnival Glass Collectors, especially for the beginner. These are the only complete set of books available that identifies the majority of the carnival glass patterns. Sketches are in black and white.
- **Pattern Notebook** – A notebook containing sections on Mugs, Table Sets, Rosebowls, Water Sets (including painted sets), Plates (small, regular & chop), Compotes (large, regular & small), Punch Sets and Vases. Each section of the notebook identifies each pattern with a COLOR picture along with information about the Maker and colors of each different pattern.
- **Souvenirs** – Periodically HOACGA makes a souvenir to be sold to members. Souvenirs have been made since 1974, a few of these are presently available. They are listed in the center section of the bulletin. Each year that Souvenirs are made, Whimseys are also made and sold at the convention banquet.
- **Video Tapes** – Video Tapes of educational programs given during the various conventions are available. A complete listing of the available video tapes are shown on the Order Form, which is part of this section of the Bulletin.

### “What is Success?”

To laugh often and much;  
To win the respect of intelligent people and the affection of children;  
To earn the appreciation of honest critics and endure the betrayal of false friends;  
To appreciate beauty;  
To find the best in others;  
To leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition;  
To know even one life has breathed easier because you have lived;  
This is to have succeeded.

Ralph Waldo Emerson

## Another "Bear" Tumbler

By Bob Grissom

The September 2000 Bulletin reported the availability and location of the six previously known "FROLICKING BEAR" Tumblers. Recently, Bob Smith reported the seventh known tumbler. This is a report of the location of the previous six plus the seventh known tumbler. Crystal Tumblers and a Pitcher have been reported. Does anyone know where they are? Please let me know so they can be reported.

1 - Tumbler - Owned by Cecil Whitley. This is probably the first tumbler found and was the one owned by The Reverend Leslie Wolfe. It was originally sold to Mary Elizabeth Collier of Tennessee. Sam Roebuck bought it at the Collier auction. Sam sold the tumbler to Cecil Whitley. All Floyd & Cecil wanted to buy from Roebuck was the tumbler. In order to get the tumbler they had to also purchase the Green "Peoples" vase (only one known) and Peach Opal "Farmyard" bowl (only one known).

1 - Tumbler - Owned by Randy & Jackie Poucher. They bought it from an ad in the Antique Trader. Mrs Rawls of Orange, Texas was the owner.

1 - Tumbler - Bob Smith purchased it at the auction of the Bob Gallo estate, Burns auction, in 1999.

1 - Tumbler - Jim & Yolinda Lewis purchased it at the Joe Corruthers auction, by Mickey Reichel.

1 - Tumbler - Sold at a Woody auction in 1999 to a Missouri collector. This tumbler is damaged. (This was not one of the two original tumblers Woody purchased)

1 - Tumbler - Bob & Geneva Leonard purchased their tumbler from Bob Gallo. This was the first tumbler that Bob Gallo owned. He purchased it from an Antique dealer in Indiana.

1 - Tumbler - In the collection of Don & Becky Hamlet, North Carolina. The tumbler is not iridized, it has Silver Overlay. It has the same base color (Green) to the glass as the Carnival ones. Don said that he was able to polish the silver. The Hamlets purchased the tumbler from an area antique dealer who had gotten it at an Antique Show in York, PA.

## On the Auction Trail with Chuck

By Chuck Kremer

**February 28 to March 3, 2001:** It was San Diego–Southern California carnival glass convention time in Pamona, California. This convention has a set format that was interrupted by an ice storm in Kansas — Brian Pitman couldn't make it out of Kansas so his seminar was cancelled. This cancellation seemed to slow things down a bit, making what I thought was a "dead" day on Thursday. This was unfortunate as the Wednesday evening ice cream social and bingo was good as was the Marie Capps seminar on Friday.

The room was not available for setting up the auction glass on Friday, but Jim and crew were up at 4 am to set it up on Saturday morning and the auction went on as scheduled. In my opinion the top-end pieces in the auction sold well, but there were many very nice pieces just a cut below that could have done better. Overall the glass was good and desirable.

Karen Engle went out of her way to provide us with a nice display of her glass and the many stories that made her banquet presentation great. In a trial run at home the glass looked so good under the carnival glass chandelier that they took the chandelier down, brought it along and had it lighted and hanging over the display at the banquet. That is what I call beyond the call of duty. A super job, Karen.

There were several nice displays, but there was one that I thought was different. Jeanette Harris called hers "Shades of Siamese." She had three or four each of ice blue, sapphire, and what she called violet blue pieces of carnival glass and in front of each group she had a picture of one of her Siamese cats. Poly's eyes matched the ice blue, Baby's eyes matched the sapphire and Coco's eyes matched the violet blue glass. Real neat, Jeanette.

One thing that is always great at this convention is Shirley Patterson's hospitality room. Shirley is a bundle of energy and she had food and drinks every day from early morning to late in the evening. The hospitality room was the "meeting room" and was probably the thing that held this convention together. I thought the motel was nice, but did not seem to have the cozy atmosphere we needed.

**March 9-10, 2001:** Burns Auction Service sold the Decker collection at Strongsville, Ohio. What a sale this was! It may very well be the auction of the year. John and Lavina Decker had created a terrific collection that included more than the usual number of pastel pieces — and the glass was good with the iridescence to match.

Prices were consistently good from beginning to the end. I hope the results will be published in the various bulletins so everyone can see the total pic-

ture. Rarely do we see as much good glass sold in one sale. There was a good crowd and they stayed with it to the end. The marigold/custard 13 inch tall mid size Tree Trunk vase topped the sale at \$10,000 and was closely followed by the marigold/custard Hearts and Flowers stemmed ruffled compote at \$7,500. I liked the ice green G & C cracker jar (\$2,600) and the amber Hattie chop plate at \$3,000.

This was an all-business sale. The people were there to buy and not just visit, but we did a little of that too.

## My Christmas Gift

By Bob Bishop

It was the Week before Christmas, let me spin you a yarn,  
About the Carnival Glass I found in a Barn.  
Walked into the Barn and what did I see?  
Twelve pieces of Carnival Glass in all their Beauty,  
I asked the price on each you see,  
The owner said they were each seventy.  
He said, He had just picked them up at a House,  
Well I waited as quiet as a Mouse,  
Imperial Grape in Helios was seventy,  
But, two pieces shown out in all their Glory.  
A Dragon & Lotus with iridescence Fantastic,  
The other was a Purple Concord Plate, I was Ecstatic,  
So if you want a piece as nice as can be,  
Hit all the Antique shops just like me.

## A Note from Frank Fenton

March 1, 2001

To the many friends of Fenton Glass who sent those wonderful surprise birthday cards and messages on my 85th:

Thank you! It really was a surprise. I had no idea that anything like that was happening. Thanks for keeping the secret. And for all the nice things you said.

Someone found another box of cards that hadn't been given to me yet and put them on my desk today. I have that warm, fuzzy feeling all over again.

I appreciate each of you!

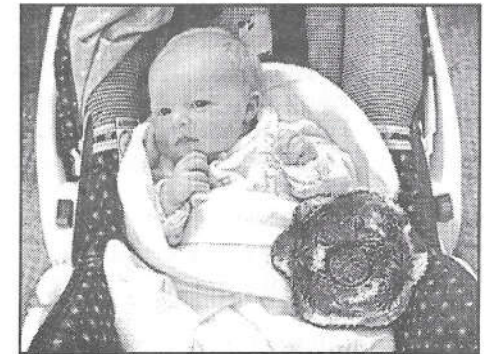

Frank Fenton

*Editors Note: Frank, I know that all of Carnival Glass wants to say a special "THANKS" to you for all of the time, attention, and help you have given. Again, we want to say how much we appreciate you.*

## Carly Joanne Seeck

We would like to announce the birth of Carly Joanne Seeck on March 12th, 2001. She was 8 lbs. 9.6 oz. and 21" long. She is doing wonderful! Gannon is very pleased to have a sister and he has been adjusting very well. Mom and Dad are adjusting also. As you can see in the following photo, Mom has already put her to work. (Have to get those Carnival Glass Auction brochures done!)

A very happy Seeck Family,  
Jim, Jan, Gannon & Carly
