2006 HOACGA CONVENTION

By Bob Grissom

Plans for the 2006 HOACGA Convention are now underway, I am sure you will want to be in attendance at this convention. It will be April 26-30, at the same place as it has been for the past 10 years, the Embassy Suites Airport Hotel in Kansas City, MO. Telephone 816-891-7788, the Room rate is \$104.00 per day. The Hotel is located near the Kansas City International Airport (free shuttle service provided by the Hotel). All of the rooms are two room suites. A cooked to order breakfast and/or a breakfast-buffet, and the Managers reception, each evening, are included with the room rate.

One of the highlights, as you have previously read in the bulletin, is the auction of the Pete and Paula Bingham collection. They will be selling about 325 pieces from their great collection, one of the pieces will be the Blue "Peoples Vase". The Jim Wroda Auction Co. will be conducting the auction. This is a special opportunity to add some very nice glass to your collection. (I attended the Texas Quarterly meeting last month, which was at the Bingham's home, it was a treat to see their fine collection). We understand that Pet and Paula are planning on retiring and will be moving to the Seattle, WA area for their retirement.

The "John & Lucile Britt Award for excellence in Carnival Glass" will be presented to Carl and Eunice Booker. Every carnival collector know the Bookers and how much they have contributed to the Carnival Glass collecting hobby. They have given educational seminars, been the editors of the ICGA Pump for many years and they have served on the Board of Directors of both the ICGA and ACGA and also their local club. They will be honored at the Luncheon on Friday. Maybe we can get Floyd Whitley and Carl Schroeder to give some background information about them.

We will have an educational talk by David Shetlar Co-author of the "American Iridescent Stretch Glass" book. We are very pleased to have him as one of our speakers. This is another aspect of our Carnival Glass collecting.

We will also have a seminar presented by Dr Roy Hieger on Imperial Glass geometric patterns, a program you won't want to miss.

There are many members that always provide help for the club. This year we are going to recognize one of those members at a special time during the convention. We will announce who the recipients are at the time the award is given. This year that person(s) know that they are receiving the award, but we want it to be a surprise for the recipient as well as the members in attendance. We do not have the time scheduled as yet, but we will make the arrangements for the award.

For the Special Glass Display we will be having a display of Vases. I know that everyone has a few vases in their collection that you would be willing to share. Vases have become a popular item for collecting in the past few years and we know this will be an opportunity to learn more about this subject.

Be sure to make plans to attend the convention. We are doing our best to make it worth your time.

CONVENTION DISPLAY 2006

By Bob Grissom

Each year HOACGA members have shared some of their glass in order to have a spectacular carnival glass convention display. This display is organized and assembled as an educational display for all of the members attending the convention to view and enjoy. A discussion is also presented by a member that is knowledgeable about the glass being displayed.

Again at the 2006 convention a major display of VASES is being planned. In order for these programs to be as enjoyable, as they have been in the past, requires members to be willing to contribute some of their glass for the display.

This display will have all of the various types of vases, from the Jardinière to some of the small Morning Glory vases. If you have a vase(s) that you would be willing to have included in the display please notify me.

NEXT REGULAR HOACGA MEETING

By Ed Kramer

The next regular bi-monthly meeting of HOACGA is scheduled for Sunday, November 27, 2005 at 2:00pm at the Prairie Village Community Center at 7700 Mission Road, Prairie Village, KS. We will discuss white carnival glass.

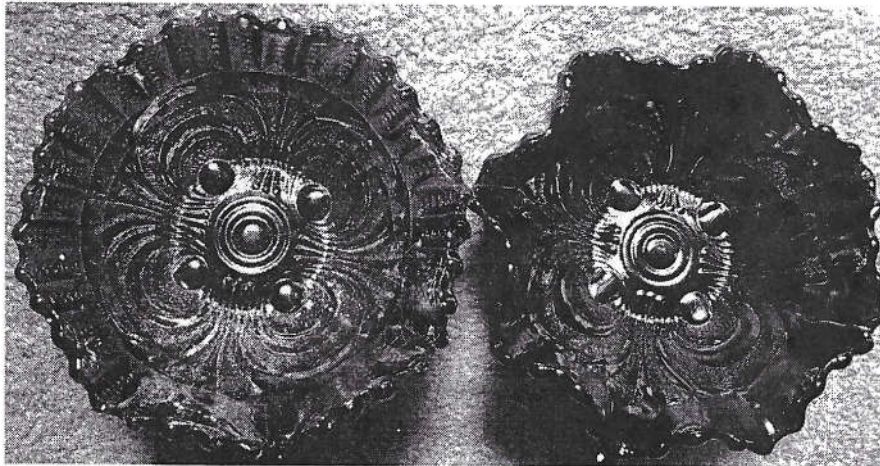

AMBER SCROLL EMBOSSED SAUCE

By Alan & Lorraine Pickup

This is a rare AMBER 5.5" Scroll Embossed Carnival Bowl Made by Imperial

Not only is the iridescence incredible but this is the only amber Scroll Embossed piece we have seen (in any shape)!! Rare + pretty = a great combination.

The bowl has the File pattern on the reverse side."

This recent eBay pronouncement for an unlisted small amber Imperial sauce had some somewhat cautious bidding for such a rarity but did manage to sell for \$00.00 when the bidding stopped. We can attest to the seller's description of the iridescence on the sauce but have to disagree with the

assertion that no other amber Scroll Embossed shapes exist as there are small amber compotes known. Also there was an amber bowl, with no description of shape or size, listed in the Mordini auction guide sold at a Mickey Reichel auction in June of 2004. Dave Doty's web site shows a small amber sauce selling for \$100 in 2004. Possibly this is the same sauce. Some weeks ago we too had the good fortune of finding this same sauce at an antique show (flea market) in Belleville, Illinois. The ebay sale was listed as coming out of NE Indiana.

These small sauce dishes are usually found in marigold, a pretty purple and a rare smoke. Glass sellers had touted the purple sauce dishes as being rare for many years and some still do. We have never seen a smoke sauce and have to say that we have seen more purple examples than marigold. This amber sauce is not listed in Carl Burns Imperial book or mentioned in any of the Edwards/Carwile books.

Pictured here with a small purple eight ruffle sauce the amber sauce appears to be somewhat larger because the ruffle is not as pronounced. Another thing that really adds to its beauty is that the file exterior shows through the semi-translucent amber glass.

So just when you begin to think that there is nothing left out there to discover in carnival glass, something like this pops up to brighten your day. Will some lucky carnival glass seeker find one in amberina or vaseline glass someday? Both are rare colors for Scroll Embossed.

LAUREL LEAVES A CROSSOVER PATTERN

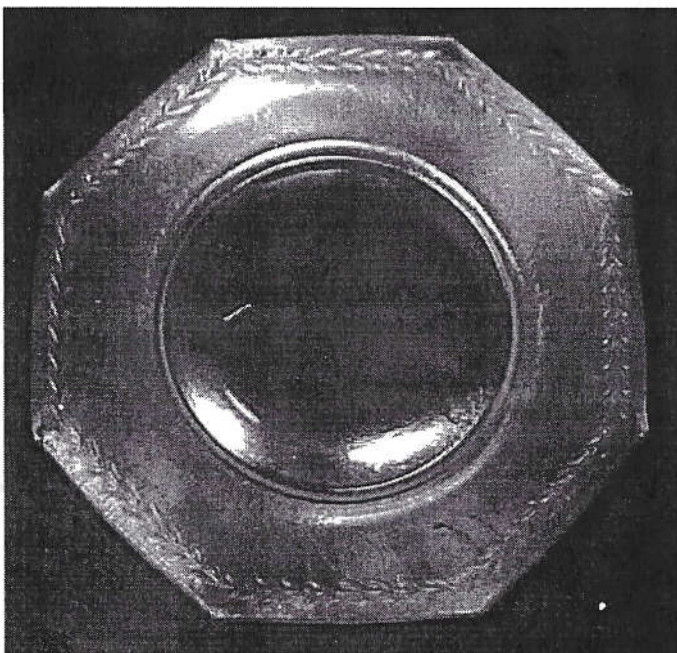

By Barb Chamberlain

Laurel Leaves is a simple carnival glass pattern, or a more complex stretch glass pattern. It consists of a ring or garland of leaves embossed or raised from the surface around the edge of either a round or octagonal shaped plate. Either of these shapes is available in two sizes - about 7 1/2" or 8 3/8". The size of the base is dependent on the size of the plate.

Marion Hartung was the first to show and name this Laurel Leaves pattern. She attributed the pattern to Imperial Glass, "because of the crackle surface". As we know, more information has become available to today's authors and internet web site authors.

Fenton has become known as the manufacturer of this pattern, as found in Margaret and Kenn Whitmyer's Fenton Art Glass Book, 1907 - 1939, and on the Shetlar's Stretch Glass web site. #757 is the number that the Fenton Art Glass Company used for the 7 1/2" plate. Perhaps their #758 is the 8 1/2" or 8 3/8" plate. I didn't find the round shape listed in the Whitmyer book, but the Shetlar's site showed both octagonal and round shapes.

Edwards and Carwile list plates in their price guide in marigold, amethyst and smoke, and say in their article that green is available. Looking through the Whitmyer listing of patterns available under the different Fenton Stretch Glass colors, they had Laurel Leaves #757 listed in Celeste Blue, Florentine Green (what we consider ice green), Persian Pearl (white), Wisteria (a pinkish darker lavender), and topaz (vaseline). They didn't indicate that #757 in topaz was Laurel Leaves like they did with the other colors listed. I found it interesting that under Tangerine (orange iridescent), a 13" octagonal Laurel Leaves plate was listed, so perhaps there are other colors in this size, as well.

There was no production number given for this 13" size. Also there are #757 & 758 listed in non-iridescent colors, so perhaps other colors will surface with an iridescent finish.

Pictured is our topaz, or vaseline, 7 1/2" Laurel Leaves octagonal plate with very pronounced pastel stretch finish.

It's always fun to find different pieces of carnival glass in a great variety of colors, even if it crosses over into the Stretch Glass category. If you have this pattern in a color or size that isn't listed, please let either Eleanor Mochel or me know.

CARNIVAL GLASS NEWS AND VIEWS

BY O. JOE OLSON

January, 1974

Woody Bombs at St Louis

John Woody bombed at the ninth major carnival glass auction of 1973, November 10 at St Louis. The outcome had been predicted by a few collectors who did not attend while a few critics who looked on described it as a stink bomb event.

But it was interesting and exciting like most of the Woody carnival productions.

This was a consignment auction with fine carnival put up by six persons plus some spicy pieces by Woody. The crowd was smaller than usual - only 51 bidding members - which some attributed to the frequency of carnival auctions during the year.

To whet appetites, Woody opened with two pieces not on the auction bill. First came a rare marigold Diamond Lace tumbler, which sold for \$400 to John Britt of Manhattan, KS. (This tumbler, owned by George Loescher, Beloit, went in the auction after Woody guaranteed Loescher it would bring \$600 or more and he (Woody) would pay the difference if it failed to reach \$600).

Woody's second surprise was an unusual green Corn vase larger than the usual vase, featuring prominent husks out from the vase. This stirred the crowd and in spirited bidding sold for \$1400 to Loescher. (It was reported Woody secured the vase for about \$1,200 from William Crowl, ambulatory dealer from VA, who found it for a reported \$120 at a flea market in the East).

When the regular carnival went up prices went into a tailspin and the majority of pieces went at prices below earlier 1973 auctions.

Tumblers - Fashion, purple, electric color, \$200; Wisteria, white, \$200; God and Home, blue, \$160; Greek Key, green, \$85.

Water sets (broken up) - Fluffy Peacock, blue, pitcher \$300, tumblers each \$42.50; Stork and Rushes, blue, pitcher \$460, tumblers each \$22.50; Singing Birds, purple, pitcher \$390, tumblers each \$35; Maple Leaf, purple, pitcher \$190, tumblers each \$20; Peacock at Fountain, purple, pitcher \$295, tumblers each \$25.

Other items - G/C cov. compote, purple, \$230; Ivy Townpump, amethyst, \$430; Trout & Fly Bowl, amethyst, \$135; Three Fruits aqua-opal plate, \$215.

LOOKING BACK continued...

There were so many relatives and friends of consignees present that hardly anyone knew who was getting what. After a G/C purple centerpiece bowl, with a tiny flake, brought \$290, and the aqua-opal Dandelion mug, \$115, Woody refused to auction any more pieces from one table at the side of the main display. After the auction, Woody dictated the following statement which was printed in the November issue of the Heart of America club bulletin:

"The consignment auction (had carnival) from Art Hughes, Bill Dawson, Orville Fadler, Dr Ron Burt, George Loescher, Woody and an Illinois dealer. It is believed everyone played fair with the public except the Illinois dealer. When he bid on his own merchandise and got it more than once, the auctioneer refused to sell any more of his things."

Woody also told Dorothy Taylor, HOACGA Secretary, that he would only schedule four carnival auctions in 1974 and they would be held at least 60 days apart.

Remarks by Charles Mochel:

It was a great idea for the auctioneer to add one or two super rarities to an otherwise common auction. Raising the mood of the bidding with the higher prices for the rarities no doubt helped all the auction prices.

GANADOR

By Bob Smith

Ganador in Spanish translates as winner and this little tumbler certainly is that. It comes out of Argentina as part of the galaxy of carnival glass produced by the Cristalerias Papini glass company during their early years of making carnival. It is listed in their catalog under Vasos forma Barrila or what we would call barrel shaped glasses. There are several other carnival tumblers similarly shaped which eventually will have their own write-ups.

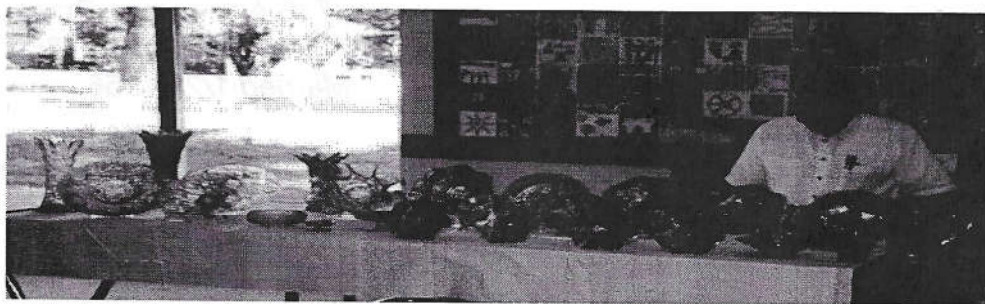

It has only been found in a rich marigold, but we cannot exclude the possibility of other colors. Only a couple have surfaced thus far so for now we have to classify it as rare. Its main feature is a band with stars and crescent moons beginning a half inch below the rim. Under this there is a band of plain glass roughly 1-1/8" in width which rests on top of 14 panels extending around the glass and down to the base. In the middle of the base is a small five point star.

The Ganador is somewhat smaller than your average tumbler being 3-1/4" in height. It was probably intended to be a juice glass as it is not shown in the tumble-up section of their catalog. The rim has a diameter of 2-1/2" and the base 2". All in all, a compact very pretty tumbler that would be a nice addition to any collection.

Happy Hunting!

CONDOLENCES

Our Condolences to Clarence Cheek on the death of his wife, Willie Jean Cheek, who passed away on October 14, 2005. They were members of HOACGA and were avid collectors of punch bowl sets.

Cards may be sent to Clarence Cheek at 3031 Mebane Oaks Rd., Mebane, NC 27302.

Robert Hansen passed away on Friday, October 7, 2005.

Robert and his brother Ron were well known for the iridizing of contemporary Carnival. Many vintage carnival glass collectors also have some pieces iridized by Robert. His red carnival was outstanding.

CONDOLENCES

We are sorry to have to inform you of the death of Thurman "Sam" Wolfe, survived by his wife, Earleen.

Sam was a former President of ICGA and also an early President of the Hoosier Carnival Glass Association.

Carl & Eunice Booker

Marnen (Robbie) Robertson, the husband of Betty Robertson of Camarillo, CA, passed away in his sleep Sunday night, October 23, 2005.

Betty & Robbie would come to the conventions and we would always enjoy talking with them. His presence will be greatly missed.

We send our condolences to Betty and their family.

Cards may be sent to Betty Robertson: 1430 Kendall Ave., Camarillo, CA 93010-3606.

Thanks to Judy Maxwell and Dean & Diane Fry for this information.

SICK CALL

Norma Strohm underwent surgery and is now home and doing well.

Cards may be sent to: Norma Strohm, 16703 Duffey Ct., Independence, MO 64055-5397.

Eleanor Hamilton underwent surgery and is now home.

Cards may be sent to: Eleanor Hamilton, PO Box 20203, Waco, TX 76702.

John Phillips has been hospitalized twice recently and suffered a heart attack during his last hospitalization. He is now home.

I'm sure he would enjoy hearing from our members.

Cards may be sent to: John Phillips, 3422 Chantarene Dr., Pensacola, FL 32507-3587.

HOACGA BOARD MINUTES

SEPTEMBER 8, 2005

By Ann McMorris, Secretary

Minutes of the meeting of the Heart of America Carnival Glass Association Board of Directors in Lawrence, KS on September 8, 2005. Board members present were President Grissom, Vice President Lacock, Treasurer Ball, Secretary McMorris and Bulletin Editor Mochel.

Treasurer Ball reported the account balance as of today is \$13,073.91.

President Grissom reported on his contacts with proposed speakers for the 2006 convention. He has also talked with the Embassy Suites personnel regarding a few changes desired by the club for various programs at the convention. Plans for the hospitality room, for a special recognition award, for the special display, and for a fund raiser were again subject to much brain storming and the board is working hard to make 2006 a memorable convention.

The bulletin will not be issued in the months of May, July, October and December. The September/October bulletin has been prepared and should be mailed in a few days.

Secretary reported on sales of the 2005 Guest Set Souvenir and on membership renewals.

Other matters considered:

1. Information for the November bulletin
2. Membership
3. Britt Award honorees
4. 2007 Carnival Glass Anniversary
5. 2007 HOACGA Convention and Auction

GUEST SET SOUVENIR

By Bob Grissom

In 2004, HOACGA made about 145 of the Cobalt Blue Guest Set as a Souvenir. Any Carnival Glass Guest Sets, regardless of the maker, Fenton or Northwood, are rather scarce and always sell for anywhere from \$300.00 to \$750.00. It was our belief that a Guest Set would make a good souvenir, but they did not sell as we expected. Maybe it was because of the price of \$110.00, but having a souvenir made is not inexpensive. We think it is a unique souvenir, and a type that has not been made before.

In 2005, since this was the 100th Birthday of The Fenton Art Glass Co. we decided to take 48 of the Guest Sets and have them decorated as a Souvenir that would commemorate their 100th Anniversary. This Guest Set contains the official Fenton 100th Anniversary logo and the HOACGA logo (Good Luck and the Horseshoe w/whip), along with a beautiful rose and vine decoration. This is a very limited souvenir, only 48, and it also has the Official Fenton Anniversary Logo, which will only appear on glass made in 2005. This is probably the most limited and unique souvenir that any club has ever made. Some of these pieces are still available.

HOACGA PATTERN NOTEBOOK

In 1979 HOACGA printed the first of the Notebook sections. This section was on Punch Sets. About 750 copies were printed and they were given, no charge, to the membership. As the supply of this section ran out it was reprinted again in 1995. It contained 36 colored pictures with information about each of the sets. Since that time 12 different sections containing an additional 1300 colored pictures of various pieces of Carnival glass have been added. The last section contains photographs and information about 66 different Bonbons and Nappies.

Many books have been, and are still being published for the purpose of identifying and pricing Carnival Glass. The HOACGA notebook does not contain pricing information, but the different sections contain more information than most of the other books combined, the exception, Dave Doy's "A Field Guide to Carnival Glass".

All of the sections to the notebook are available to purchase by individual sections, if you do not have yours updated to the latest information, then you are missing a lot of information about Carnival Glass. If you do not have any of the information then you should at least order the sections that contain information that fits your collecting interest.

We have been publishing new information each year up to this time, but do the cost of publishing we will not be issuing a different section each year as we have in the past.

Robert J Bishop Estate of Carnival Glass
(Preview Friday, Nov. 18, 3:00pm - 5:00pm)

Seeck Auctions is pleased to be selling at auction the Carnival Glass estate of Bob Bishop from Massachusetts. Bob was a long-time collector and was very involved with the NECGA Club. All the glass will be sold without reserve and it all will sell (all 1400 pcs). Yes, we will call this a "Mega" carnival glass auction. Friday afternoon and evening will consist of many lots with several pieces in them. Also, on Friday we have tried to put all the damaged items. There are some extremely rare items here, some have major damage and others have just minor damage. So don't miss out on the Friday items! Saturday will be a super day of glass - approximately 550 lots of single pieces. The auction is full of everything from Stretch, Brocaded, great vases, quality iridescence and rarity. Don't miss this "Mega" auction!

Check out our website for the complete catalog and lots of pictures:
www.seeckauction.com

We will have live phone bidding (available only on the Saturday sale) and absentee bidding available. Please call with any questions. Hope to see lots of you in Wentzville. Lots of glass for everyone!

NCCC/SJVCGC CONVENTION 2005

Our convention will be held September 22 – 24 at the Holiday Inn Fresno Airport.
For Convention registration information contact June McCarter 209-523-6778

The events are:

Thursday night: Ice cream social

Friday: Luncheon and a program, My Second Collection, given by Gail Westphall. Gail sold her collection at the Southern CA/San Diego convention in Bakersfield in 1996.

Friday 5 p.m.: President's wine and cheese reception

Friday evening: Auction preview

Saturday: Remmen auction. The Remmens are noted for bringing exceptional glass to auction. You can view photos at www.remmenauction.com.

Saturday night: Banquet followed by a program, Iridescence is the Essence, presented by John Lee. John's priority in choosing glass is iridescence. Both our speakers are bringing their glass, so this will be an excellent opportunity to see their collections.

The hospitality room will be hosted by Bob and Aggie Natali. Please bring your favorite snack food for all to enjoy. Also they would appreciate volunteers to help with the ice cream social and the hospitality room. Sorry, no pets allowed.

Besides our great speakers, open house featuring a premier Millersburg collection, and auction, there will be super glass for sale in the rooms, and lots of good conversation with your fellow carnival glass lovers! There is free airport transportation. Fresno is only 1½ hours from the Yosemite National Park entrance. September is a perfect time to visit the park. So please plan to join us. It won't be a great convention without YOU!

VASES

Part Three in a series

HOACGA

2006

Pete Bingham

The last time I had a drink of alcohol we had 0 (zero) pieces of carnival glass in our collection. Guess it's sort of ironic how certain personalities can trade one addiction for another.....now Paula worries

what the next one might be! The reason I mention this at all is that when I was drinking, Scotch was my favorite choice but it was a choice that took a good while to develop. In carnival, vases seem to be the same sort of situation, I didn't really care for them at first and then at some point they became the FAVORITE.

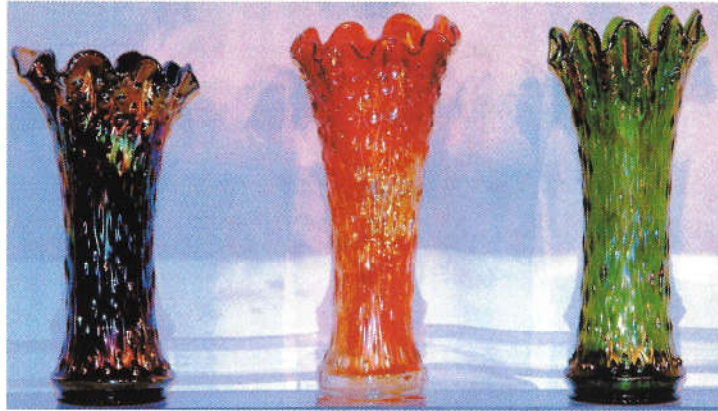

Midsize Tree Trunks

Vases have a number of qualities that can make them the focus of your collection. The numbers of patterns with their different colors and sizes could make for a huge collection. They display so well in so many tight spots in the cabinets and shelves and they show off the carnival iridescence as well as any shape. The star of our vase collection is obviously the Blue People's Vase. After years of pleading on Paula's part, the Whitleys agreed to let us have it in 2,000. It cost a lot but we've never regretted the purchase. It is and should be the goal of any person trying to build a Landmark Collection. Tom Mordini told us that his opinion placed the People's Vases "at the top of the mountain" in this hobby.

We have some other Millersburg vases that carry great pride. The Purple Mitered Ovals is so beautiful and delicate. The five examples of Ohio Star make a stunning display. The green one is a perfect emerald beauty, there is also a marigold, a purple, a crystal and an iridized crystal. We have Radium examples of Swirled Hobnail in green, marigold and purple.

Moving on to Northwood we'll start with the Tree Trunks. In the *Standards* there are aqua opal, sapphire, and blue. ice green and green. *Mid-Size* colors are: green, blue, purple, ice blue, white and the super rare lime ice green.

Next we have the *Mid-Size/Plunger* based marigold, purple and emerald green. *Funeral Vases* are in white, electric blue, electric purple Elephant's Foot and nutmeg custard (but not iridized) *Midsized Thin Rib* in stunning sapphire and the RARE white..

Fenton Vases are represented with three magnificent Rustic Funeral Vases in blue, amethyst and emerald green. The emerald green vase is over 23 inches tall and just might be the prettiest piece of green Fenton out there. However, we'll have to let the bidders be the judge on that!

Imperial vases featured will be Funeral Vases in the Ripple pattern in marigold, vaseline and electric purple. There are also two great Beaded Bulls Eye vases in electric purple and radium marigold.

We love our vases and really don't know how I persuaded myself to part with them.....at least the Scotch can't be blamed.
