This Purple Dugan Farmyard Bowl
set a record price of \$19,000 at this year's
International Carnival Glass Auction.

REMEMBERING THREE HOACGA MEMBERS

Bob Grissom

We mourn the loss of another of our Carnival Glass friends. Tom Brosamle of Sioux City, Iowa and George Housewright of Stephenville, Texas, both died suddenly, and Dale Matheny of Belmont, California passed away after a long illness.

Tom and Cheryl Brosamle were HOACGA members for several years before dropping out, and rejoined about 2 years ago. They had packed their Carnival glass away to do some remodeling of their home. After the remodeling was complete they started putting their glass back out and discovered how much they enjoyed Carnival Glass and decided to become collectors again.

George & Pat Housewright have been familiar faces at conventions and auctions for many years. George along with Pat enjoyed their vases and tumblers. They did a lot of tumbler discussion and trading with John Britt.

Dale Matheny died July 16, after a long illness with cancer. Everyone knew Dale and George Thomas as the members with the outstanding collection of Vases and the "Wall of Carnival". I had the opportunity on two different occasions to visit with them in their home. Dale and George always welcomed you and were very appreciative for your visit.

These collectors have been an asset to the Carnival Glass hobby. Their efforts have added much to Carnival Glass, we appreciate their dedication to the hobby.

We are sad to say that Dale Matheny passed away on Thursday, July 15th 2010. Dale was from Belmont, California and was a member of several Carnival Glass Clubs. He was an avid collector with an eye for beautiful glass. To us, he was a great friend and confidant who was always friendly, caring and generous. He was a privilege to know and always full of wise and wonderful advice.

We will always remember spending time with Dale and George especially in their California home. Some of the things we will remember the most is sitting in the recliners, looking at the glass and spending hours talking about Carnival Glass. Dale saw so much beauty in the glass and talking about the glass was an absolute pleasure to him and to us.

He was preceded in death by his partner, George Thomas, 2 years ago. They both will leave lasting memories for all of us who knew them. The Carnival Glass community will miss their contributions, knowledge and love for the glass.

Memorials may be sent to: Mission Hospice, 1900 O'Farrell St, Suite 200, San Mateo, CA 94403 or Dominican Sisters Vision of Hope, 1555 34th Ave. Oakland, CA 94601

Jim and Jan Seeck

DIAMOND AND RIB

By Barb Chamberlain

Diamond and Rib is a Fenton pattern that was basically made in one shape, a vase. The pattern features ribs inside round or oval shapes. Diamonds were formed in the space between the ovals. The vases that have ovals have been swung, because when the piece came from the mold, the ribs were inside a circle shape. This was originally Fenton pattern #504.

The standard vase is found quite easily in amethyst, blue, green, marigold, and white. Normally there are three rows of circles or ovals, but white can be found with four rows of rib filled ovals. Are there other colors with four rows of ovals? There were three molds used by the workers at the Fenton factory because the base sizes are found from three to three and a half inches. These vases can be found from 6" - 13" in height.

Funeral vases were also made, and none are common, and you are lucky if you have added one in any color to your collection. The base size for these vases is about 5 1/4" in diameter and they stand from 17" to 21" in height. Colors that have been found in this massive vase are amethyst, blue, green, and marigold.

Perhaps the most desirable shape in this pattern is the jardiniere. These are the funeral vases as they came from the mold, and were not swung. They are basically straight from top to bottom. It is on these pieces that you see that the circles are truly what came from the mold. One cracked amethyst jardiniere is known, as well as green and marigold. A green and a marigold just sold at ICGA from the Ruth and John Phillips' collection. There is also one marigold flared ruffled jardiniere, which anyone would be proud to own.

From what I understand, these were not intended as jardinieres when they were manufactured, but according to Carnival 101, Eddie Radcliff discovered that this piece was originally called a shaving paper vase, which was used to toss used shaving papers that had cleaned the whiskers and shaving soap from the patrons. Pretty fancy wastebasket, I'd say! If only we had lived and bought Carnival Glass at that time, we could have purchased one for 90 cents.

As with most patterns in Carnival Glass, an oddity in shape or color will make it more desirable to collect. There is a spittoon shaped whimsey vase that was very slightly swung from a standard mold. This stands about 5 3/4" tall and two or three are known. Also, a highly collectible whimsey would be the flared and ruffled 4 1/2" bowl that was sold at auction in 2007.

As usual, I would love to have any of you write to me to report your different colors or shapes in this pattern, so that I may include this info in a future issue of the HOACGA newsletter. You may email me at dbcham@iowatelecom.net, or send a letter to 124 E. Honey Creek Dr., Manchester, IA 52057.

EXCITING AND FUN

By Gary Heavin

What an exciting time to be in carnival glass. Having just gotten back from Ruth Phillips sale, it is great to be able to tell those that were not there, IT WAS GREAT.

Brian and his great group of officers did a fantastic job of making the convention very exciting. I saw several great folks whom I have not seen before, and yes, there was a great group of younger collectors in the crowd.

With other conventions coming up, along with Mr. Whitleys sale in Oct., I would encourage everyone to "jump on the wagon" because the fun and opportunity to add those special patterns to your collection is now at hand. One of our hobbies greatest attributes is this, the color and pattern are so individual to the taste of the collector, that there is something for everyone.

Attending a convention talk by Stacy and Desiree, I was so impressed and moved by his tribute to those in the hobby, who have passed on. You could feel the love and admiration in the room, toward those great collectors, that it brought many to emotional moments, myself included, and I did not even know all those collectors, but honestly folks, the love was so thick you could cut it with a knife. WHAT A GREAT HOBBY. What other hobby could you ever be in that would be so beautiful and loving as the one we are in.

If I were to never again collect the glass, the people I have gotten to know, has been worth all the effort and expense. Please encourage all your collector friends to join all the associations they can. They are all great and offer so much knowledge and friendship, and certainly they are going to offer so much pleasure in years to come, that you will never regret it.

SAD NEWS FROM TEXAS CARNIVAL GLASS CLUB

Cecil Whitley, one of our club's founding members, passed away this morning. Cecil was a gracious lady who shared her expertise and love of carnival glass with anyone who was lucky enough to spend time with her. Although she retired from her teaching career long ago, carnival glass collectors in Texas and across the United States reaped the benefits of her research and the sharing of information about her extensive tumbler collection. Cecil was kind and generous and she was quick to offer praise for a job well done. She was the epitome of a true southern lady and she will always be in our hearts.

Our deepest condolences to Floyd, Tommy, Jeannie, and family.

Used with permission of Sandy Sage, RANGER Editor, Texas Carnival Glass Club

VASELINE CARNIVAL GLASS Part 2 - Millersburg #2

By Kathi Johnson

In 2008, Galen and I did a seminar at HOACGA on Vaseline Carnival Glass. This is the second in a series of articles recapping the information stated in that seminar. As presented at that time, we greatly appreciated the loan of some very rare and unusual pieces of glass to allow us to see and share with everyone!

Okay, so what is Vaseline?? The Vaseline Glass Collectors, Inc. website states: 'Vaseline Glass is a particular color of yellow-green glass that is made by adding 2% Uranium Dioxide to the ingredients when the glass formula is made. The addition of the Uranium Dioxide makes the glass color yellow-green. Vaseline Glass is ALWAYS verifiable by using an ultraviolet light (black light) on the glass item. When this is done, the glass turns a bright florescent green!'

Straw yellow will have a higher percentage of uranium (per CG 101 website).

I've started this series with Millersburg. Many of their patterns have a variety of shapes with very limited quantities of Vaseline. Millersburg Vaseline tends to be 'straw yellow' and is more easily identified than Fenton's marigold overlay. It frequently has a radium (watery) iridescence, so it is VERY obvious and easy to see the Vaseline color.

In the last newsletter, we pictured a rare Millersburg Holly (originally listed as Holly Sprig or Holly Whirl) nappy. In Marie McGee's Millersburg Glass, she reports that there is a banana boat shape in Vaseline – we did not have that piece in our display. We did have 2 other shapes of Holly to share, however.

#1-On the bottom left is the Night Stars bonbon (card tray shaped). We purchased it from the Don Doyle collection years ago. It displays the pattern very well. The six-pointed star, surrounded by 6 eight-pointed stars is an easy pattern to identify. The stippling adds a new dimension to any piece of glass. This is also the only one reported at this time.

#2- In the center - Our Holly rose bowl is the only reported. We purchased it from the Don Doyle collection. At 5 ¾" across, it is a cute little rare piece of Vaseline.

#3 –On the bottom right, we also have this oddly ruffled Holly 6 ½" bowl in our collection. It is definitely NOT symmetrical, but has a great deal of appeal because of its odd shape.

#4-Top center is a Rays & Ribbons bowl, IC: this awesome bowl (rare because of the color and the ice cream shape) was added to our collection via Tom Mordini. It is, again, the straw yellow color and is so strong that you can see (in natural light) the yellow green thru the edge of the bowl. There are reportedly a few more pieces of Vaseline in this pattern (different edge shapes).

Even when it is rainy the sun is shining in your smile. Share a smile with someone today!

In the next issue of the newsletter, we'll continue with the Millersburg Vaseline glass we used in our display. Remember: yesterday was history, tomorrow is a mystery, today is a gift: that's why they call it the present. Thanks for sharing this gift with us.

SEE PICTURE PAGE 17

DARYL AND NORMA STROHM SELLING COLLECTION

It was announced at the HOACGA June Meeting that Daryl & Norma Strohm will be selling their carnival glass collection at the Embassy Suites Hotel at Exit 10, on I-29, near the KCI Airport.

The auction will be on Saturday, November 20, 2010 with the Seeck Auction Company in charge.

Daryl states they bought all of their glass for the super iridescence and will have something for all collectors.

The following are some of their super pieces:

- Dragon and Strawberry Amethyst ICS Bowl
- Little Fishes Amethyst ICS Bowl
- Dragon Tongue Dark Marigold ICS Bowl
- Several Medium and Funeral Size Plunger Base Vases
- Ten Mums 7 pc Water Set, Blue (Best I've seen)

SEE PICTURES PAGE 17

THANK YOU

By Gale Eichhorst

I wanted to thank the HOACGA officers and Members for presenting me with the "Distinguished Service Award" at this year's luncheon honoring Marie Capps. As everyone who was in attendance at the luncheon realized, this award was a TOTAL surprise and caught me totally unprepared.

I was presented with a beautiful Fenton Dancing Ladies Painted Square Topped Vase in Indigo Blue. It now sits in the middle of my shelf above my computer so I can always view it while at my computer.

It is nice to know that a person is appreciated. Thanks again for the award. What a TRULY WONDERFUL carnival glass hobby this is that has brought us all together from all walks of life and from all over the world. This hobby has truly enhanced my life.

Thanks friends.

KEY LIME OPALESCENT DANCING LADIES VASE!

By Brent Mochel

WOW. I still can't get over this order we have received from the Fenton Art Glass Co after opening all the boxes. It might be there best carnival product ever! Seriously, Each and every vase is a perfect ten for color, mold strike and iridescence. You will just love the key lime green base color as it catches the sun light and glows from across the room. In the pictures they look more Vaseline but it's only because the flash brings out that they do glow and Flores like Vaseline glass. I am so proud to be able to offer this to HOACGA members. Please buy one and see if you are as thrilled and love them as I do. I think you will be coming back for another one. The whimsies are also just to die for. They are spectacular in shape, quality and color. The opal on most is plenty even for the most distinguished of collector. Order them now today, first come first served while supplies last. I think you will be delighted to see them and so excited to own one. I am honored to get such a tribute piece made by Fenton for all of us to enjoy. This certainly is a more economical way to own a dancing ladies vase than an older version one.

As you know, the old versions are extremely rare and desirable with the last reported price for one going at auction in 2005 for \$7000 dollars. Well HOACGA will be asking far less than that. We are now ready for shipments. We have around 60 DL 6-ruffled vases at \$75 dollars each. We have around 60 DL Flared out vases at \$75 dollars each. We will also be offering a carnival painted version of these vases in our offering this year. We have around 3 standard ruffled and flared vases painted to offer for sale. These vases are very limited and will be offered at around \$150 dollars each. Please call for more details on them.

If that's not exciting enough, we have some 35 different whimsies made out of this run as well. There are several fan shaped, swung out vases, spittoons, square shape, four-cornered hats, and even a few heart shaped baskets or water buckets!

To Place an ORDER: send check or money order made out to **HOACGA**. Please add \$10 dollars for the shipping per piece.

If not a current member of HOACGA please add 35.00 dollars for dues renewal.

2010 HOACGA NOTEBOOK INSERT

"Miniatures" -- "Smalls" --- "Novelties"

INFORMATION CONTAINED IN THIS NOTEBOOK INSERT HAS BEEN OBTAINED FROM A VARIETY OF SOURCES AND IS COMBINED HERE INTO ONE SINGLE PUBLICATION.

The 2010 Notebook section consisting of 240 color photographs (first of possibly 3 sections) is a combination of "Miniatures", "Smalls" and/or "Novelties". The purpose of this Notebook section is to supply information, in a single publication, about this aspect of Carnival Glass collecting. For some of these items the age and maker are not known but, the items do exist, so this is an attempt to identify and supply information about "Miniatures" "Smalls" & "Novelties". It is intended to provide information to the present and future Carnival glass collectors.

The late John & Lucile Britt and Eleanor & Jack Hamilton were avid collectors of smaller items, they were the pioneers and the ones that generated the interest in collecting these special items. Carl & Eunice Booker have been avid collectors of the items also, but they were not as aggressive as the Britts and Hamiltons.

Jerry & Carol Curtis got the fever for small items after visiting and seeing the Britt's and Hamilton's collection. Jerry offered to obtain and assemble the necessary information for this section of the HOACGA Notebook. He has spent hours (many, many, many) e-mailing, telephoning and researching the necessary information for each item. He has done an outstanding job of assembling information from other collectors. Presently over 800 different photographs and information on this subject have been received.

THE NECGA CONVENTION IS FAST APPROACHING

Please Consider Attending

September 9 - 11, 2010

Four Points Sheraton, Leominster, MA

Reservations: 978-534-9000 (be sure to mention the convention)

Reservations must be made no later than August 9th in order
to receive the discounted rate of \$90 per night.

Convention Contact:

Don Dorais at ksd24ddd24@cox.net or 401-724-4874

Sept 9: 5:30pm; Pizza Party at the Hospitality Room

Sept 10: 2:00pm - 3:00pm; Seminar "Stump Tom Burns" (please bring
your one of a kind piece to this for Tom Burns to look at and
discuss).

Sept 10: 6:00pm; Banquet. Guest Speaker is Tom Burns. Mini-auction.
The cost is \$30 per person (choose either Chicken Marsala or Roast
Sirloin). Send your payment to Robin Brown at 57 Kimball Rd.,
Fitchburg MA 04120.

Sept 11: 10:30am - 11:30am; Seminar by Bill & Sharon Mizell "Small
Plates"

Sept 11: 2:30pm - 4:00pm; Auction Preview

Sept 11: 4:00pm; Auction (view pictures at www.necga.com)

PACIFIC NORTHWEST CARNIVAL GLASS CLUB CONVENTION

August 12 - 14, 2010

Red Lion Hotel, Seattle Airport

Room rate is \$89.95 per night if reservations made by July 13, 2010

For details and auction listing: www.pnwcga.org

ACTIVITIES:

BBQ at the Beach

Luncheon presentation by Dennis Swafford

Banquet presentation by Dick Thorne on Iridized and Non-Iridized
matches.

Auction includes three Fenton Open Edge Plates (blue, white, marigold).
